THE CITY ELECTION.

At the charter election held in this city yesterday, RIDDELL, the Republican candidate, was badly beaten by BLACKMORE, the candidate of the Workingmen. BLACKMORE received very nearly the entire democratic support, and the votes of multitudes of republicans in addition. Indeed, Mr. RIDDELL carried but one precinct in the whole city, and that by a majority of only four votes.

ALLINDER, independent Republican, was elected City Treasurer, over MCCARTHY, regular republican. ALLINDER was adopted by the Workingmen, and was supported by the democrats generally, as well as by many Republicans.

SLAGLE, regular Republican, was elected City Attorney, over BURGWIN, Workingman.

MCCARGO, regular Republican, was elected Controller, over Wright, Workingman.

The Select Council stands twenty-three Republicans to three Democrats, and one Labor Reform. The Common Council, thirty-eight Republicans to five Democrats. There is a tie between two of the candidates in Oakland township.

Here, where the special causes of dissatisfaction in the Republican ranks are fully understood and appreciated, any explanation of these results would be altogether unnecessary. Indeed, we incline to the opinion that the naked statement given above will convey an intelligible idea of the case to all men everywhere who are experienced in the management or accustomed to the close observation of political affairs.

When the excitement engendered by this canvass shall have expired, so as to give an opportunity for calm reflection among Republicans of all classes, we design to review, to some extent, the causes which have contributed to this result, not for the purpose of reviving unpleasant recollections, but to contribute in some degree to the removal of obstacles to future harmony.

According to the Consolidation Act the official terms of all the officers elected yesterday will expire in the fall, and their successors will be chosen concurrently with the State election in October. Before the time for making new nominations shall arrive, we trust the Republicans of the city will have reconciled their differences, removed the latent as well as the manifest causes of complaint which now exist, be prepared again to join hand in hand, as in former years, and recover the laurels they have now temporarily lost.

GLEANINGS.

The *American Churchman* has considered it necessary to give a heavy blow at novel reading, and more particularly at Miss Muehlbach's novels. At this late date, fifty years after the time of Scott, and but thirty from the close of the nineteenth century, such a blow is as weak and as absurd as the faint flicker of an expiring dip. We are no longer Puritans, nor are we so narrow minded, bigoted and unchristian as to lay down blue stocking laws and condemn those who will not obey them. We think that when the *Churchman* wrote that the novels of Miss Muehlbach were "the most indecent, corrupting and licentious novels that had ever found a respectable publisher;" if he had happened to remember and to understand the motto on the English garter, he might perhaps have concluded to burn his manuscript, even if its place in the paper were to remain blank. Novels are as necessary as sermons, and do quite as much good, for the moral influence is more widely spread and less egotistical. We have read many of the novels referred to, and have found much good in them. Some of the expressions, but none of the sentiments, might bore through the thin skin of a hypocritical pharisee, or of a weak minded caviler, but those who read the books for things which ought not to be there, will not find them, and those who, like the *Churchman*, dread their contaminating influence, should make arrangements with the Appleton's to have stamped on the back of each volume, Dr. Holmes' warning, "touch not the unclean thing."

Last winter the Richings Opera Troupe played in New York, Philadelphia, Baltimore, Pittsburgh, and most of the other large cities in the country, but gave Boston the go by. The *Commercial Bulletin* of that city thinks it feared to brave the criticism of the most musical city in the country. We *have* heard of the Boston Organ, but we had no idea that the possession of that, made the town the most musical one in the country. In fact, we have always supposed that Boston had, like Pittsburgh, to put up with the scraps and leavings of the New York seasons, and we are *so* much obliged to the *Bulletin* for having enlightened us as to the true state of the case.

Verily the western towns will beat the east in the race of progress yet, if the east does not watch closely. Detroit, which is an energetic and a beautiful city, is going to uniform its mail carriers. They are to wear neat suits of West Point grey, with metal buttons, the trousers have a black stripe and the cap is a naval one with a postal badge. This is a slight matter apparently, but it is a good thing and shows progress, and Detroit will not suffer from it. As to us, we don't even have a police uniform, which does not however matter much, as long as we have no force to wear it.

A girl named Nelly Wright made away with herself on Friday last in Chicago, by swallowing morphine. It was a clear case of "one more unfortunate," sure; loving, abandoned, desperate, dead, were the stages of the last few weeks, and we should pity and not condemn such cases just about as often as we should condemn and not pity.

Mexico is in a nice state. Ortega is in prison, Escobedo wants to raise thirty thousand men and take Cuba, haughty demands are being made on Guatamala, several of the members of Congress are in prison, Juarez is unpopular, and Maximilian is regarded as a saint, and his embalmer has been imprisoned for selling relics of him.

The recent high winds in Michigan played some queer pranks. They took the roof off the Firemans Hall, in Ann Arbor, and, after carrying it over a couple of houses, deposited it in the back yard of a third, which showed how the winds are stupid, for nobody, as a general thing, wants a roof in his back yard.

A prisoner in the jail at Grand Rapids Michigan, found some rat poison in his cell and took it, hoping to make himself ill, and thereby prevent his appearance at Court. He succeeded, for he died from the effects of it during the night. He was charged with an attempt to steal baggage.

The Prussian needle gun is to have a trial at the State arsenal in New York City on Thursday next. It is as yet untried in this country.

Governments of the Rebel States.

The Confiscation Bill Postponed.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, Dec. 10, 1867.

SENATE.

The CHAIR submitted the reply of the Secretary of the Treasury to the resolution inquiring whether, and by what authority, Edward Cooper had been appointed Assistant Secretary of the Treasury: A vacancy having occurred by the resignation of Mr. Chandler, Mr. Cooper was authorized under the act of February, 1795, to assume the duties of the office until his successor was appointed. Referred to Committee on Finance.

Mr. HOWARD offered the following resolution, which was adopted:

Resolved, That the Secretary of the Interior be requested to furnish to the Senate a statement setting forth, first, the amount of United States bonds issued to the Pacific Railroad Company and its branches, including the Central Pacific Railroad Company, under the act of 1862, and amendments thereto, the dates of which are the same, issued to the Company, and delivered to and sections of the road, in respect to which they were granted; second, an account between the United States and said Company and each said branches, including the Central Pacific Company, setting forth the amount of interest paid by the United States on such bonds, and the amount of interest repaid to the United States by said Company and each of said branches, including the Central Pacific Railroad Company, and the mode of repayment, whether in cash or transmission of dispatches and transportation of mails and supplies, as provided by the charter; third, the length of line on each road already completed and accepted, designating the locality.

Mr. SUMNER offered the following resolution, which was adopted:

Resolved, That in answering the resolution of the Senate of the 4th inst., calling for correspondence relating to claims against Great Britain, the President be requested, if compatible with public interest, to furnish a copy of all the correspondence, and other papers not heretofore published in this country, touching the recognition of belligerent rights by that power at the beginning of the rebellion; also touching the depredations on the commerce of the United States by the Alabama and other vessels built, armed, equipped and manned in Great Britain, and, if convenient, he cause the Secretary of State to prepare an index to all correspondence and documents on these subjects.

A Joint Resolution was introduced by Mr. HOWARD and referred to the Committee on Claims, instructing the Secretary of War to settle the claims of the Columbia Turnpike Company for damages to their property during the war.

A bill to regulate the rights of married women in the District of Columbia was introduced by Mr. Harlan and referred.

Mr. WILSON'S bill to remove disabilities from certain citizens in Alabama was referred to the Judiciary.

Mr. GRIMES introduced a Joint Resolution in regard to Consular appointments. Referred to the Naval Committee.

Mr. COLE introduced the following bill, which was referred to the Committee on Finance:

"That the United States notes, commonly called legal tender notes, shall be receivable in payment of all taxes, internal duties, excises, debts, and demands of every kind due to the United States, except duties on imports; and of all claims and demands against the United States of every kind, except for interest on bonds when payable in coin, and shall also be lawful money and legal tender in payment of all debts, public and private, within the United States, except where otherwise specially provided in contracts made after the 4th day of July, 1868, and except on imports and interest as aforesaid."

Mr. DOOLITTLE offered an amendment to the bill introduced by Mr. Wilson on Friday, to allow the adoption of Constitutional Amendments or convention by majority of voters, instead of requiring a majority of those registered. The amendment makes the proviso that persons who did not possess voting qualifications required by those States previous to the rebellion must, in order to be permitted to vote at said election, be possessed of one of these qualifications: 1st, service in the United States army of one year or more; 2d, ability to read the Constitution of the United States, and subscribe his name to an oath to support it; or, 3d, freehold estate in his own right to the value of two hundred and fifty dollars.

Mr. DOOLITTLE said if, as he expected, Mr. Wilson should press his bill, this amendment was very important. It might possibly bring peace to that distressed country. He hoped Congress would take a position on the question that the people would sustain.

Mr. WILSON said his bill was simply to strike out that very remarkable provision in the bill to provide for the more efficient government of the rebel States, which, when the bill passed, he thought would operate badly for the friends of reconstruction, but nine States had ordered and elected their Conventions, and matters were going on, he thought, exceedingly well; so it was doubtful whether his bill was necessary. Elections there had been conducted in as orderly a manner as in the average of the country, and if one or two of the new Constitutions failed, which was doubtful, there certainly would not be more than that. Reconstruction was sure to triumph, in spite of all that might be said about it.

Mr. CONNESS hoped that this very important bill would be allowed to come in without being so prejudiced. He should be ready to review it when it was legitimately before Senate.

Mr. DOOLITTLE hoped it was not intended to censure him. He had not gone into any discussion of it further than to say it was an important bill. He did not know from the remarks of Mr. Wilson, whether he was in earnest and meant to insist on his bill or abandon it. Which ever course that Senator took he (Doolittle) was very much in earnest in offering the proviso.

Mr. DAVIS said the greatest issue ever before the people was looming up before them now; whether this should be a negro's or white man's government. Recent decisions of the people showed it was to remain a white man's government to the end. If the Senators from Massachusetts wanted that question forever decided, let them bring out Fred. Douglass as the candidate for President, and four-fifths of the white people would rally to show them that mushroom negro measures, forced upon the South, would be put under their feet. The strongest desire in his bosom was to overthrow the republican radical party. He hoped the Senator from Massachusetts would press his measure; it was a test he wanted to come quickly.

Mr. STEWART said that one would suppose from the remarks of the last speaker, that the Union party were going begging for the assistance of the African race. He thought no one placed any great importance on the votes of one-tenth of the American people; that the real issue to be decided was whether loyal or disloyal men should govern the country. Every Union man adhered to the proposition that it was unsafe to place power in the hands of disloyal men. He repudiated the charges that Congress had acted unconstitutionally, and then reviewed their course towards the South before and after the refusal of the South to accord their rights to loyal men until Congress enfranchised not only blacks but most of those whites who had forfeited their rights. He then took up and commented upon the policy of the President until the expiration of the morning hour.

On motion of Mr. CHANDLER his resolution on the subject of Abyssinian belligerent rights was postponed.

Mr. DRAKE'S resolution condemning the tone and language of certain portions of the President's message was taken up. Mr. Drake said nothing but a sense of duty prompted him to offer this resolution and suggest this perhaps extraordinary course, but if an assault was worth resisting, it was worthy of effectual resistance. The question was whether the blows and kicks administered by the President to Congress could be solved over by Senatorial dignity and silence on their part, he thought was little short of criminality. Never before had a President declared unconstitutional bills that had already become laws. When a bill had become a law, the President was merely the executory power and had no more right than any other man to declare it constitutional. An officer charged with the execution of a law had no right to impair the effectiveness of that law. The President had a right to his private opinion; they had a right to demand that he keep it to himself, denouncing such a law as unconstitutional, was, under the circumstances, an incitement and invitation to resistance. Doubtless the offender against it would snap his finger at it, relying on Executive pardon. The Executive would probably do likewise, and if so, would be the greater criminal of the two. What gave greater danger to these declarations of the President was the inflammable state of the South. But for that they might have been passed by in silence. He (Mr. Drake) had concluded that he had no more right to treat the President with consideration in this discussion than though he were a double skinned rhinoceros. He admitted the President might recommend the repeal of any law for the sake of expediency, or he would assume that the President had the power to recommend its repeal as unconstitutional. Even then it depended under the circumstances of the case. But he had no right to emasculate the force of that law or incite resistance to it. All knew that this was the last step he meditated. What meant his inquiry, in the message, how far he had power to resist Congress? and the suggestion that the Executive might be forced to stand on his right of course against Congress. It was but feeling the pulse of Congress, to see how far he might go, and the pulse of rebels and rebel sympathizers to see how far he should be supported, and as a proof of that, had he the power, he would drive them from the capitol at the point of the bayonet. The President was precluded by the action of Congress in passing a bill, from pronouncing an opinion on it, otherwise than as an individual, Congress being the supreme legislative power, whose acts were entered on the record in archives of the nation, and every such officer was bound by it and must make it his own rule. Especially was this the case where a law is passed over the President's veto. If it were true, then, that the President had not this right, it followed that he had used his high office to set before them the opinions of Andrew Johnson, who was no more than any other man they met in the street. Was not that a breach of the high privileges of Congress? He was convinced this called for reprehension, and they could not, in view of their high office, pass by this denunciation in the State paper read over the whole Union. This was the Senate of the United States and he would preserve its dignity from such encroachments, so it should never again be attacked by Executive insolence. This much he owed to himself and the noble State he represented, whether the Senate agreed or not.

Mr. JOHNSON desired to speak on the resolution, but said if agreeable to the Senate he would prefer to have it postponed until to-morrow.

At the suggestion of Mr. SHERMAN further consideration was postponed to Thursday, and after a short Executive Session the Senate adjourned.

HOUSE OF REPRESENTATIVES.

In the vote on Saturday suspending currency contraction, the following names were omitted of members voting nay: Messrs. McCullough, Peters, Pike, Phelps, Poland, Price and Pruyn.

Mr. BUCKLAND introduced a bill to amend the additional bounty act so as to extend its benefits to soldiers who have been discharged, for the expiration of their term of service, a short time prior to the actual expiration of their term. Referred to the Committee on Military Affairs.

The SPEAKER announced the following committees:

On Reconstruction—Messrs. Stevens, Pa., Boutwell, Bingham, Farnsworth, Hulbard, N. Y., Beaman, Paine, Brooks and Beck.

On Revision of Laws of United States—Messrs. Poland, Spalding, Jenckes, Ferris and Woodward.

On Ordnance—Messrs. Logan, Butler and Schenck.

Mr. DODGE offered a resolution instructing the Committee on Military Affairs to inquire into the expediency of establishing a United States Arsenal at Fort David Russell, Cheyenne, Dakota Territory. Adopted.

Mr. HOOPER introduced a bill to provide for the sealing of scales, weights and balances used by National Banks, Navy Yards and Custom Houses. Referred.

Mr. ALLISON, as a question of privilege, presented a letter from Mr. Ordway, Sergeant at Arms, referring to certain newspaper paragraphs, particularly one in the New Hampshire *Patriot*, charging him with having had attained large sums for liquors, cigars, &c., furnished to Committees of the House, and denouncing such charges as utterly false and base; denying that any bills for liquors, cigars or other extravagances had been allowed since he was Sergeant at Arms, and requesting an examination of his account. Mr. Allison stated he had faith in the honesty of that officer, but thought that his request was reasonable and proper. He therefore moved that the subject be referred to the Committee on Accounts. Agreed to.

TO FILL VACANCIES.

On Mines and Mining—Mr. Knott.

On Public Buildings and Grounds—Mr. Jones.

On Expenditure on Public Buildings—Mr. Grover.

On Expenditures War Department—Mr. Galloway.

Mr. DRIGGS, from the Committee on Public Lands, reported a joint resolution extending for two years the time allowed to railroad companies in Michigan and Wisconsin so as to entitle them to land granted under act of March 3d, 1865, with the proviso that said roads shall be completed before December 31st, 1872.

Mr. WASHBURNE, of Illinois, denounced the bill and the whole policy of land grants as being for the benefit of railroad companies and in opposition to the interest of the people. He moved to lay the joint resolution on the table—yeas 35, nays 11.

Mr. JULIAN advocated the bill.

Mr. ROSS expressed surprise that after all the land granted Michigan within the last four years there was any more public land in that State.

Mr. WASHBURNE attempted to get the attention of the House to some other points involved, but was prevented by the previous question, under which the joint resolution passed—yeas 108, nays 39.

Mr. FARNSWORTH, from the Post-office Committee, reported a joint resolution making it the duty of the Postmaster General to allow Senators and Representatives to examine and copy all papers and recommendations in the office pertaining to the appointments and removals of postmasters, &c.

Mr. JULIAN, who originally introduced the resolution, explained the necessity. He said some time since he called at the Department to look at some papers and found that they were examined before he was allowed to see them. In one case, in looking over the papers connected with the removal of a Postmistress, the only support of a blind mother, he found among them an offer of a sum of money to the Assistant Postmaster General for the removal of the incumbent and the appointment of the applicant. He would not say a bribe was operative, but this showed why such papers should be open to the inspection of the members.

Mr. WARD asked Mr. Julian whether he connected the Second Assistant Postmaster General with that appointment.

Mr. JULIAN replied he did not. The letter had been addressed by mistake to that official, and had been by him handed to the First Assistant Postmaster General.

The joint resolution passed.

The SPEAKER announced the next business in order was to be the confiscation bill, which on the 19th of March, last was postponed till the 2d Tuesday in December.

Mr. CHANDLER addressed the House against the measure declaring that it was time the black rag of confiscation was lowered and the Union Jack raised in its stead.

Mr. ELDRIDGE followed on the same side. He declared it was time union was restored and that the people were enjoying the fruits of their victory. Why had not union been restored? The faithful and impartial historian would, in answering that question, prefer a most fearful indictment against the party which had the control of the Government.

At the conclusion of Mr. Eldridge's remarks, the bill was postponed until the 21st of January next.

An adjournment for the holidays, from the 20th of December to the 6th of January, was agreed to.

Mr. BANKS asked leave to offer a resolution requesting the President to furnish information as to the sale of public vessels since the close of the war, but Mr. Mungen objected.

Mr. INGERSOLL asked leave to offer a resolution directing the Committee on Ways and Means to invent ways and means necessary to unlock and put in circulation the enormous amount of $138,167,820 now locked up in the vaults of the Treasury, or such part thereof as may be required to pay interest on the public debt.

Mr. GARFIELD objected.

Mr. ASHLEY, of Ohio, made some remarks in support of his proposed Constitutional amendment.

"TIMES" EDITORIAL ON IMPEACHMENT.

LONDON, Dec. 10.—The action of the United States House of Representatives on the resolution for the impeachment of President Johnson excites considerable comment. The *Times'* editorial, in the course of which it highly praises the House for its refusal to impeach the President, considers this result as reopening the course of practical legislation. The *Times* expresses fear, however, that the President will accept the act of the House as a new endorsement of his policy, and from this concludes that the old hopes of sound reconstruction must be deferred.

THE ROMAN QUESTION.

LONDON, Dec. 10.—It is inferred, from the tenor of a speech made by M. Rouher, in Corps Legislatif, that the French Emperor has adopted the policy on the Roman question which coincides with the views and desires of the Clerical party. This impression is strengthened by the tone of the French press since the speech was delivered. The Liberal journals are greatly dissatisfied, while the Clerical organs seem jubilant.

FENIAN PROCEEDINGS.

LIVERPOOL, December 10.—The Fenian sympathizers are making extensive preparations for a public funeral in Liverpool on Sunday next, in honor of Allen, Gould and Larkin, but the Orangemen threaten to break up the procession, and it is feared a serious riot may take place should the proposed demonstration be attempted.

FRANCE.

THE LUXEMBURG QUESTION—EXPLANATION.

PARIS, December 10.—Minister Rouher has made some official explanations in regard to the old Luxemburg dispute. He affirms that the first suggestion for a change of frontier came last year from Prussia, and declares that since the settlement of the controversy, which was followed by the London Conference, France has entertained no thought of territorial extension by negotiation or conquest.

NATIONAL BANK SUIT.

In the case at issue before the Supreme Court, a Boston National Bank having been sued by attachment on the ground that it was a foreign corporation, the defense moved to vacate the order mainly on the ground that the act of Congress creating National Banks provided that they may be sued in United States Courts in the districts in which they are located, and that, being Government agents, they are free from the jurisdiction of all other Courts. Judge Ingraham decided that their incorporation does not make them United States agents, and if it did it would not alter their general position, except as to particular transactions in which they were agents, being in this respect in the position of any bank, and that the word "may" in the act was peremptory but restrictive, and that State Courts had jurisdiction, and that the United States was foreign to the State of New York within the meaning of the code, and, therefore, the attachment must stand.

THE HERALD AND THE ASSOCIATED PRESS.

The *Herald's* petition to the Associated Press to be allowed to retract its letter of withdrawal has been under debate in the Association for two months. Mr. Marble, of the *World*, held that the membership and interest of the *Herald* in the Association to be in fact and law terminated, to take effect from December 31st, and, therefore, the *Herald* could not become a member after that date, save by the unanimous consent of the Association. It has been decided by a majority of the members that a majority vote could grant the *Herald's* petition.

FROM WASHINGTON.

The Richmond Collectorship.

Army and Mileage Matters.

Expenses of Steamboat Inspectors.

Convention of Those Interested in the Manufacture of Spirits.

[By Telegraph to the Pittsburgh Gazette.]

WASHINGTON, Dec. 10, 1867.

RICHMOND (VA.) COLLECTOR.

The Senate Finance Committee met this morning, and had under discussion the case of Collector James, of Richmond, Va., suspended by the President for alleged corruption in office. The Committee, in view of all the facts and after a full discussion, decided to sustain the President in suspending James, and appointing as Collector Mr. Mulford.

ARMY MATTERS.

The House Military Committee at a session this morning decided to report a bill abolishing all brevet ranks in the army and prohibiting any further breveting of officers except during the time of actual war, then only for gallant and meritorious conduct in the face of the enemy. The bill also provides that no brevet officers shall wear a uniform on dress parade, which accords with his brevet rank. It provides, when such officers are assigned to duty by the President, they shall not draw pay as to brevet rank. The Committee had also under discussion the propriety of disposing and selling the military reserve lands at St. Louis and Fort Leavenworth, Kansas, but no conclusion was reached. General Grant has notified the Committee that he thinks the Government arsenals and lands in Jefferson, Missouri, can be dispensed with without detriment to the public service.

LANDS TO RAILROADS.

A test vote was taken in the House today on the subject of granting public lands to railroad companies. It came up in the shape of a bill reported from the Committee on Public Lands, renewing grants of public lands and to railroad companies in Michigan and Wisconsin. Mr. Washburne, of Illinois, opposed either the renewal of old land grants or giving new ones. He said he wanted the House to decide this question now, as he understood numerous applications would be made this winter, similar in character, and the people had a right to know whether Congress intended to pursue this policy of giving away the public lands, which belong to the people, to railroad monopolies. The yeas and nays were demanded upon the passage of the bill, and it was carried by a vote of one hundred and eight to twenty-nine.

MILEAGE MATTER.

The House Judiciary Committee this morning considered the subject of extra mileage for members. New members claim three mileages for what is considered two sessions of Congress—namely, the fourth of March, the July session and the present session. Although the subject was not fully decided by the Committee, it seems probable that they will report against any extra mileage.

CONVENTION OF SPIRITS MANUFACTURERS.

The National Convention of those interested in the manufacture and sale of spirits was held this evening. Mr. Curtiss, of Illinois, was elected President; Messrs. S. P. Ingraham, New York; Jno. S. McElvine, Ky.; S. M. Murphy, Ohio; D. R. Shotwell, Mass.; and John Anderson, Pa., Vice Presidents. Messrs. Tracy, New York; Smith, Va.; Simpkins, Mo., Secretaries. The President, on taking the chair, said the object of the convention was to place before their representatives in Congress the inefficiency of the present tax on spirits. He would recommend very decided change in the law, to exclude an inducement for fraud. He was satisfied that in Illinois there was less than five cents a gallon collected on whisky consumed. Mr. Murphy proposed that a committee be appointed to represent each interest, which was agreed to. They are to report to-morrow. The following are the Committee on Rectifyers and Manufacturers: Messrs. Murphy, of Ohio, Hoffman, of New York, Kiedy, of Massachusetts, Kerr, of New York, Simpkins, of Missouri, and Sailor, of Pennsylvania. On Distillers, Shalwell, Massachusetts, Blarsdell, New York, Harris, Ohio, Curtis, Illinois, Martin, Maryland, Gibson, Ohio, Ennis, New York, Emmett, Ohio, Leach, Pennsylvania, Smith, Virginia, Martin, Maryland, and Stine, New York. On Commission Merchants, Pruyn, Ohio, Cumming, New York, McElvaine, Kentucky, Creighton, Maryland, Colville, Ohio, Dorn, Kentucky, Heinrield & Boebu, Missouri, McCoy, Maryland, and Delong, New York. There were about thirty delegates present, and others are constantly arriving.

MILITARY RESERVE LANDS.

The House Military Committee has under discussion the question of disposing of the military reserve lands at St. Louis and Fort Leavenworth, but no conclusion has been reached. Gen. Grant has notified the Committee that he thinks the Government arsenal at Jefferson, Mo., can be dispensed with without detriment to the public service.

EXTRA MILEAGE—FREEDMEN'S BUREAU.

It is probable the House Judiciary Committee will report against allowing any extra mileage to members of Congress; also, that the House Committee on Freedmen's Affairs will recommend the continuance of the Bureau until after the Southern States are admitted to representation in Congress.

MEETING OF COLORED WORKINGMEN.

At a meeting of the colored workingmen of the District last night, a committee was appointed to devise means of securing a fair proportion of employment on the public works.

EXPENDITURES FOR SALARIES TO STEAMBOAT INSPECTORS.

A communication from the Secretary of the Treasury to the House shows that the expenditures for salaries of supervising and local steamboat inspectors during the fiscal year ending June, 1867, were $87,000, and the fees collected nearly $217,000.

ANOTHER VETO EXPECTED.

The bill striking the word white from the charter of this city and Georgetown, and from all the laws of this District, which passed the House yesterday and the Senate last Thursday, went to the President this afternoon. A veto is expected.

ABOLISHING BREVET RANKS.

The House Military Committee has decided to report a bill abolishing all brevet ranks in the army and prohibiting any further breveting of officers, except during time of actual war and then only for gallant and meritorious conduct in the face of the enemy.

ANOTHER FOREIGN TREATY.

The Senate Committee on Foreign Relations has on its table a treaty with the Sandwich Islands, Venezuela, Denmark, Japan and Madagascar.

SUSPENSION OF COLLECTOR JAMES.

The Senate Finance Committee has decided to sustain the President in suspending Collector James, of Richmond, and appointing Collector Mulford.

GEN. SHERMAN.

General Sherman was on the floor of the Senate to-day.

GEORGIA.

Proceedings of the Convention—Election of Officers.

[By Telegraph to the Pittsburgh Gazette.]

ATLANTA, Dec. 10.—The Convention re-assembled at noon, J. L. Dunning in the Chair. Mr. Dunning stated that as Mr. Blodgett had been elected temporary chairman yesterday, and was not then present, he would now vacate the Chair in favor of that gentleman. No objections were made and Mr. Blodgett took his place as Chairman and read a long address.

The resolution requiring candidates for the presidency of the Convention to state their views on the relief bill was laid on the table.

The Convention proceeded to the election of a President, by *viva voce*, which resulted as follows: J. R. Parrott, of Barlow, 103; Mr. Dunning 46, and Mr. Erwin 2. The election is regarded as a triumph for the more conservative wing. Mr. Parrott, in his address, said above all things the Convention should do nothing to throw additional obstacles in the path of the Republican party, or put weapons in the hands of their enemies. P. M. Shiebly, of Floyd, a member of the Loyal League, was elected Secretary over A. Gaskill and T. E. Marshall, of Monroe, Assistant Secretary. Pending the election for President, an outside negro attempted to vote in place of an absent member; he was discovered and brought to the bar and put out as an intruder. The Convention adjourned until to-morrow.

NEWS BY TELEGRAPH.

—Concerning the convention of whiskey distillers, and others interested in the business, held in Washington City, yesterday, the New York *Herald* special says it was one of the most important of the kind which has yet taken place. The call emanated from the meeting held in New York on the 22d of last month. The extensive distiller, Mr. Curtiss, of Illinois, offered to prove that the Internal Revenue Department failed to collect five cents a gallon on the quantity of whiskey consumed in his State during the past six months, and that the bonded warehouses are a great source of the prevailing frauds, and the easy manner in which Revenue Collectors and brokers, acting in collusion, manage to hoodwink the Government in taking whiskey out of bond, ostensibly to be sent to Europe, when it really finds it way to California and into *rectifying distilleries in Eastern cities*. It will be urged upon Congress to tax all whiskey before it leave the distilleries, and reduce the tax to twenty cents.

—Another veto may soon be expected from the President. The House has passed for the second time the bill to strike out the word "white" from the laws of the District of Columbia, regulating the selection of jurors, and leaving colored tax payers equally eligible with whites. This bill passed both branches of Congress in July last, but was subjected to a "pocket veto" by the President. Should Congress take its usual holiday recess, it will again share a like fate.

—In the civil suit in the United States District Court in St. Louis, against Bodeman & Co., tobacco manufactures, the jury returned a verdict condemning all manufactured tobacco, raw material, tools, implements, machinery, &c. In a previous trial of the defendants for affixing fraudulent brands to manufactured tobacco, the jury failed to agree and a civil action was then brought up for the forfeiture of material and appurtenances of the factory with the above result. This is said to be the first civil suit of the kind in this country.

—It is stated there will be five hundred delegates at the Conservative Convention, to assemble in Richmond to-day (Wednesday.) It is stated the Convention will oppose universal suffrage, but favor impartial suffrage on educational and property qualifications; also, favor the nomination of Gen. Grant for the Presidency, on the New York platform, and be liberal in every particular. An address will be issued to the "people of the United States."

—The House Postal Committee has decided to report a resolution requiring the Postmaster General to permit all members of Congress to inspect the papers on file in his department regarding the removal and appointment of postmasters in their Districts. Heretofore the Department has treated that class of papers as confidential.

—The iron and other manufacturers, in Convention at Cleveland, Ohio, on Monday, approved the call for a National Convention at Cleveland, on the 18th, to propose a removal of taxation on domestic luxuries. They also adopted a resolution favoring the raising of taxes sufficient to pay the interest of the public debt and the current expenses of the Government.

—A terrible shock of an earthquake occurred at Porto Rico, on the 1st inst. At one place the inhabitants were at church hearing mass, and the scene which ensued was most pitiable. People were dashed together in consternation, and the terrible cries of the women and children were heart rending.

—The inquest on the nitro-glycerine explosion case in South Bergen, New Jersey, returned a verdict that "the explosion was caused by the carelessness of Burns, one of the victims," and censuring the contractor, Col. Shaffner, for employing him.

—The National Republican Committee may postpone the holding of the National Convention until July, when all the Southern States are to be admitted. The chances are in favor of Chicago being the place of meeting.

—In the United States Circuit Court, Brooklyn, Monday, Judge Benedict sentenced Edward Duffy, who had been convicted of illicit distilling, to the Albany penitentiary for thirteen months.

—General Grant and a large number of prominent army officers have asked the Military Committee of Congress to enlarge the Subsistence Department of the Army.

—The new Commissioner of Agriculture has given out that no persons need apply for appointments in his Bureau, as he is reducing the force.

BY HAVANA CABLE.

The Earthquakes at Porto Rico—Rebellion in Hayti.

[By Telegraph to the Pittsburgh Gazette.]

HAVANA, December 10.—Advices from Porto Rico state that earthquakes have not yet ceased. There were one hundred and fourteen shocks in eight days. Several buildings have been destroyed since last accounts. At St. Thomas the people had given up all efforts to rebuild their habitations or resume business.

Intelligence from St. Domingo says the brother of Montez was at the head of eight thousand Haytiens on the frontier, and threatened to invade the Republic. A sanguinary conflict between his troops and those of Solnave was expected. President Solnave is determined to set fire to the powder magazine and blow up the capitol rather than yield to the rebels.

ST. LOUIS.

Death of a Husband and Wife—Embezzler Held to Bail—Distilleries Seized—Mark of Respect.

[By Telegraph to the Pittsburgh Gazette.]

ST. LOUIS, Dec. 10.—Mrs. Margaret A. Johnston died last night, a few hours after the demise of her husband Wm. Edward Johnston.

John B. Anvon, charged some days since with embezzling funds from the United States revenue office, at Vicksburg, was held in $10,000 bonds to-day to appear at Oxford, Miss., to answer any charge brought against him by the Grand Jury.

Four prominent distilleries were seized here yesterday for violation of the revenue laws.

The Merchants Exchange will be closed to-morrow as a mark of respect for Edgar James, who was the first Vice President of that organization. The Exchange will be draped in mourning thirty days. The death of so many prominent men, which has occurred within the past two days, was the cause of unusual gloom throughout the city.

MEMPHIS.

Steamer Burned—Editors Charged With Contempt of Court.

[By Telegraph to the Pittsburgh Gazette.]

MEMPHIS, Dec. 10.—The White river steamer J S. McCane, was burned on Friday night, with 1,000 bales of cotton. The boat is a total loss. The crew barely escaped with their lives. The steward, John Reilly, of Columbus, Ky., was lost. The boat was owned by Capt. Duffer, the commander, and valued at $16,000; insured in St. Louis for $10,000.

Galloway, Rhea and Clusky, editors, were before the Criminal Court, charged with contempt of court, caused by an article, this morning, severely criticizing the action of the Judge, for releasing negroes on straw bail.

TENNESSEE.

Disqualifying Laws Repealed—War Claims Against the Government.

[By Telegraph to the Pittsburgh Gazette.]

NASHVILLE, December 10.—The House to-day passed a bill repealing all laws disqualifying colored persons from holding office and sitting on juries; also, a bill providing for appointing a General Commission for the State and three from each county to file the claims of all loyal Tennesseeans for property lost through the war—these claims to be forwarded to Washington for allowance by the Government. Both bills will probably pass the Senate.

CANADA.

[By Telegraph to the Pittsburgh Gazette.]

QUEBEC, Dec. 10.—An iceberg has been formed between the Island of Orleans and the north shore, and it is expected that an ice bridge will also form between Quebec and Point Levi immediately. Thermometer 25° below zero.

ST. CATHARINES, Dec. 10.—The Welland Canal is closed by ice.

Locomotive Boiler Explosion—Several Persons Killed.

[By Telegraph to the Pittsburgh Gazette.]

WHEELING, December 10.—A locomotive boiler exploded this morning, causing the instant death of the conductor, engineer and another employee of the road. A foreman in the engine shop, in this city, named Shafer, died from injuries received, to-day.

Oakland.

In this district Isaac Jones, Republican, was defeated by David Coyle, the Labor Reform candidate. George F. McClean, Republican candidate for Common Council, was elected; but between the other candidate, John Fleming, and Gotleib Genner, on the Labor Reform ticket, there was a tie vote.

Fire.

Between four and five o'clock last evening, a fire occurred in the house owned by Thompson Bell, No. 68 Fourth street, occupied by Mr. Fisher, as a boarding house. The fire originated in one of the back rooms, on the second floor, in which two little boys were playing, one of whom threw a burning stick under the bed which ignited the bed clothes. The furniture in two rooms was entirely destroyed, and the building considerably damaged, while everything in the house of a perishable nature was more or less injured by the water. The alarm was sounded from Box 13, and the engines were promptly on the ground and the firemen labored faithfully until the flames were extinguished.

We have now every prospect for good stages of water in the rivers, and it is not improbable that a coal boat rise may come before the close of the week. The effect of a rise will be sensibly felt in trade circles, and will make money much easier.

*In Oakland township, for Common Council, G. F. McClean was elected, but there was a tie vote between John Fleming, the other Republican candidate, and Gotlieb Genner, Labor Reform candidate.

Allegheny Temperance League.

The Allegheny Temperance League met last evening in the First Presbyterian Church; opened in the usual form, Rev. E. E. Swift, Vice President, in the chair, W. G. Warren, Secretary. Prayer was offered up by the Rev. W. Young.

Minutes of last meeting read and approved.

On motion of Prof. L. H. Eaton, Rev. J. B. Clark, Mr. Jonathan Gallagher, Esq., and Dr. Haslep constitute a Committee to arrange a course of lectures for this League, exhibiting the different phases of the Temperance work.

Rev. Wm. Young, of Pittsburgh, then addressed the meeting. He spoke of the great need of earnest labors in the Temperance cause, and pressed on all present their individual responsibility. He closed by presenting strong encouragement to persevere in the good work.

Rev. E. E. Swift followed. He compared strong drink to the liquid fires that rushes down the sides of Mount Vesuvius, and showed that the former was far more destructive. He stated that the inmates of our jails, and penitentiaries and the miserable wrecks of humanity that we see daily around us are the strongest temperance arguments that could be adduced.

Dr. M. R. Trevor then made some interesting statements in regard to the physical effects of intoxicating drinks. After some timely remarks from Prof. L. H. Eaton, the meeting closed with benediction by Rev. E. E. Swift.

Card.

Dr. E. S. Aborn informs his patients and friends of Pittsburgh and vicinity, that he will be absent from Dec. 18th, until the 15th of January, and that thereafter he will only be professionally at his Medical and Surgical rooms, No. 134 Smithfield street, from the 1st to the 5th and from the 15th to the 20th of each month.

PITTSBURGH, Dec. 10, 1867.

Ristori will make her appearance to-night in "Media" at the Academy of Music, supported by the very talented company which travels with her. The press throughout the country speaks glowingly of Ristori in "Media," and, perhaps, in no other piece does she appear to better advantage. There have been many seats already disposed of for to-night's performance, and we anticipate a very large attendance. To-morrow evening the great artiste will appear in Elizabeth, and on Friday evening in Marie Antoinette. We believe this is the last tour through our country that Ristori will make, and those who have not yet seen or heard her should embrace the opportunities about to be presented for doing so. Secured seats for either nights may be procured at C. C. Mellor's well known music store, 81 Wood street.

Fire.—At about five o'clock last evening the residence of General William Robinson, in Allegheny City, was discovered to be on fire. The flames were first seen in the front parlor, and as this room was not occupied at the time, the damage might have been much more serious if a passer by had not noticed them shortly after they started. A defect in the furnace was the cause, and the fire was extinguished before doing much damage, but the water used in extinguishing it soaked and ruined carpets, paper and pictures. We congratulate the General on the escape of the house from total destruction.

The attention of our readers is called to the advertisement of the Fair, to be held in Excelsior Hall, Allegheny, commencing Thursday evening of this week, for the benefit of the North Church, Allegheny, Rev. Dr. Hodge's. There will be fancy and useful articles, well made, at reasonable prices. It is the intention to give as far as possible an equivalent for all money received. Our friends may therefore visit this Fair with the assurance that they will not be urged to vote on a great many different articles. The Fair held by the same persons last year was a complete success, and we hope the one this week will be liberally patronized.

Contemptible Outrage.—The grand square "Schomacker," furnished by Barr, Knake & Buettler, for the concert at the Academy of Music, on Monday evening, was seriously damaged. Some scoundrel, previous to the concert, forced the lock and broke the damper, so that the same could not be used during the evening. The miscreant seemed to understand how to effect his object, without entirely disabling the instrument, and doubtless was not pleased at the selection of piano made for the occasion.

Homeopathic Fair.—An idea of the amount of patronage which has been received by the Homeopathic Fair, which closes this evening, may be given by the fact that over one hundred gallons of coffee were sold each day that dinner was served, and up to last Friday evening more than $5,000 net gain had been reported. This evening the goods remaining unsold will be put up at auction, and as everybody and his family will be there, a good time may be anticipated.

Miss Anna Dickinson, the greatest female talker in America, will lecture under the auspices of the Mercantile Library Association, at Lafayette Hall, on Friday evening. Her subject, "Women and Idiots" is suggestive of the quality and character of the literary feast in store for those who may attend. Mr. Vincent is expected here a week or so hence, and will lecture several evenings on entertaining and highly amusing subjects.

Fire in Peebles Township.—The dwelling house of R. H. Palmer, at Gleenwood, in Peebles township, was consumed by fire on Tuesday morning. Nearly all the contents of the building were destroyed. How the fire originated is not known. A hired man sleeping on a lounge in the dining room gave the alarm, in time to save the family from the flames. The loss was partially covered by insurance.

Now is the Time to Prepare Your Presents.—In slippers, pin cushions, infant bibbs, and tidies; also, gown and shemise yokes, and pillow cases stamped from the French patterns; braid silk and embroideries; also, stamps for sale, at the renowned Weed Sewing Machine office, 112 Grant street. dec6:4t

Clerk Brown, of the Quarter Sessions, has given further substantial evidence of proper appreciation of his duties, by providing a convenient desk in order that Court business may be dispatched more satisfactorily than was possible with the old arrangement.

Had a Hearing.—William Patterson, charged with stabbing William Linton, in Allegheny, on Saturday night, had a hearing yesterday and was required to give bail in $1,000 for his appearance at Court.

Smithson, Palmer & Co., sold at auction on Tuesday, the house and lot No. 8 Wylie street for $5,600. Also, the dwelling house and lot No. 25 Hancock street for $7,075.

Standard Principles.

There should be *standard principles* in medicine as well as philosophy.

Without a "zero" to start from, or a "standard" from which to calculate the deviations the principles and practice of medicine, in fact the principles of any art or science, cannot be satisfactorily elucidated or properly understood.

The art and science of medicine is divided into several *special* departments, each having their standard principles which form the basis for their scientific elucidations.

Every particular part of the human body has had its average natural properties, constituents, quantities, &c., reduced upon scientific principles to a standard of nearly definite proportions in health.

This serves for the more correct elucidation of disease by comparison and measurement of the deviations from the healthy standard. Thus, the average natural proportionate constituents of the blood in health being reduced to a standard, any considerable deviation from this standard quality of blood is disease.

The same in the urinary excretion; the average natural proportionate constituents of the *urine* in health form the standard, any considerable deviation from which basis, either in proportion or constituents, exhibits disease.

Now the *blood* is the *life* of the body. Disease is the antagonist of life. Every attack of disease is an attack upon the blood.

From the blood is secreted the urine. Every deviation from the standard quality of blood is represented in the changed condition of the urine which is secreted from it. And as is the change in the blood, so will be the change in the urine at the time. To know the condition of the urine, then, is to know the condition of the blood and the kind of deviation or disease.

These are practical *facts* of medical science. Propositions which have been clearly demonstrated by the labors of illustrious medical authors, Bird, Beale, Prout, Simon, &c., &c., and which are daily being satisfied by the examination of numerous specimens of urine sent to our office, No. 132 Grant street, Pittsburgh, representing every class and variety of disease.

These investigations and the prescribing of medicines in accordance with these facts has been the practical business of our life. So extensive has been our experience in these examinations during the last twenty years that scarcely a town or township within fifty miles of Pittsburgh, but numbers a dozen or more of patrons who have thus *sent* to us for medicines and obtained relief.

And knowing that hundreds of others are still lingering out a miserable existence without medical aid, some because they have passed through the "old ordeal" without relief, and some perhaps because they may not know where to apply to, we feel justified in making these *facts* public, satisfied that a number will seize upon these plain truths and be fully rewarded by a *cure*.

CITY ITEMS.

Hazard's Powder,

So justly celebrated for its strength and cleanliness, can now be bought in large or small quantities of his agent, Arthur Kirk, 172 and 174 Federal street, Allegheny.

This powder as now sold is the result of forty years experimenting, and is pronounced by the best judges the best in market—either for mining or sporting purposes, and is put up in either metal or wooden kegs, as the customer may wish. The blasting powder is marked *Mining F, FF, and FFF*, is a very superior article and when put in wooden kegs is much safer, and retains its strength longer than any powder in metal kegs. When we add to all this that Mr. Kirk, as soon as he was appointed agent, at once put down the price two dollars per keg, and is now selling it at $4.50 per keg, with a liberal discount to dealers and consumers by the car load.

In view of all this it will be useless for us to urge our readers to send their orders to him when they will receive prompt attention.

Ancient Fine Arts.

To the Editor of the New York Herald:

Respecting the relics of porcelain ware found in the late exhumation at Herculaneum, which have been forwarded to the Society of Antiquities in London, whereof your correspondent says the bottle resembling Drake's Plantation Bitters was undoubtedly placed among the ruins by the agent of Dr. Drake, we desire to state he is incorrect in every respect. If a bottle was found there bearing our lettering, the language of the Ancient Romans was different from the accepted literature of that day. Our Agent has other business than this in Europe, and has not been in Italy at all. No doubt Americans carry Plantation Bitters to Rome; but trying to impose upon a society of Antiquarians in this way, seems quite useless, and we do not appreciate the joke. It is unnecessary for us to spend money in Europe while we are unable to supply the demand for these celebrated Bitters here.

Respectfully,

MWF:F P. H. DRAKE & Co.

The only place to get bargains in ladies' furs is at Wm. Fleming's, No. 139 Wood street.

This is the Season of the Year when children teething are almost sure to have dysentery and diarrhoea. Mrs. Winslow's Soothing Syrup is a never failing remedy. It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly cure griping in the bowels and wind colic. Mothers, don't fail to procure it. Be sure and call for "Mrs. Winslow's Soothing Syrup," having the *fac-simile* of "Curtis & Perkin's" on the outside wrappers. All others are base imitations.

Chapped Hands, face and all roughness of the skin, certainly cured by using the Juniper Tar Soap, made by Caswell, Hazard & Co., New York. It surpasses all other remedies, as it will prevent roughness of the skin, if used during cold weather. It is conveniently applied, avoiding all the trouble of the greasy compounds now in use. It can be used by ladies with the most tender skin, without irritation or pain, making it soft and clear. Sold by the Druggists generally. w.

FALL AND WINTER
CASSIME

The Pittsburgh Gazette

WEDNESDAY, DECEMBER 11, 1867.

THE Cleveland *Herald* comes to us enlarged by the addition of four full columns. It is conducted with industry and ability, and deserves all the success it has achieved.

PITTSBURGHERS sometimes felicitate themselves with the idea that their city is among the most exemplary for good order, morality and religion. A West Virginia contemporary is of a different opinion. Hear it:

"Pittsburgh far surpasses any other city of its size for crimes of every grade. Almost every paper from that city contains either a murder, rape or robbery."

THE people now have the competent testimony of the National Convention of Distillers that the government has not collected five cents a gallon on the spirits made and used. They do not take any of the rascality to themselves, but affirm that the frauds have been perpetrated by collusion between the Collectors on the one part and the brokers on the other.

MR. DRAKE is trying to induce the Senate to formally censure President Johnson. Inasmuch as the House of Representatives has declared in the most emphatic manner that the President has not exceeded his authority, or fallen short of his duty, but only differed, as he had a right to do, with the legislative bodies in opinion, we submit that the action now proposed would complete the stultification of the Republican leaders.

AT the last session of Congress a bill was passed abolishing distinctions on account of color between citizens of the District of Columbia. This was done so near the close of the session that the President was at liberty to pocket it. The prospect now is that it will be passed in season for the President to repeat the operation in case Congress shall adjourn over the holidays. Is Congress really contriving "how not to do it?"

IN NEW YORK many failures are reported among mercantile houses hitherto considered first-class. Of course, the popular cry increases for the Secretary of the Treasury or Congress to do something to stop the revulsion. What either can do in the premises is altogether problematical. Almost every business man has a remedy, but scarcely two are agreed in opinion. There are laws at work in this matter which governmental authorities will find it hard to overcome. It is useless to oppose the inevitable, and the American people will so find in the end.

THE Albany *Evening Journal* wants Gov. Fenton nominated for Vice President on the ticket with Gen. Grant. It does not claim for him pre-eminent or even unusual abilities, but urges that "he is firm in his convictions for the right, of unblemished personal integrity, and devoted to those great principles which lie close to the heart of the people;" all of which the mass of Republicans everywhere gladly concede. It further urges that the nomination of such a man is made imperative by the scandalous administration of Mr. Johnson. So far as we are able to judge a majority of the Republican members of Congress, by their vote on impeachment, have destroyed the force of this appeal. They have plainly said the President has done nothing but what he had an indisputable legal right to do.

ACCORDING to official report the Government, during the last financial year, derived revenue to the amount of $15,084,532 from the National Banks. This does not come up to the recent estimate of Mr. Jay Cooke; but it makes an exhibit that is creditable to the banks, and ought to relieve them of much of the existing popular clamor.

The objection remains that the banks do not pay State, county and municipal taxes; and this objection is well taken. However, this must be said, that this evil has always existed in our system. So long as the banks were State institutions they escaped most local levies, paying only on real estate. The same evil exists in respect to railroad, canal and other improvement companies. The principle is entirely wrong; and the evil ought to be obviated; but this demand is as imperative in one direction as another.

SECRETARY MCCULLOCH declares that the existing tariff has ceased to be protective. Foreign merchandize flows in as steadily as it would under what is facetiously called a free trade tariff. This is one of the main causes of the stagnation of domestic industry. Herein is found, moreover, one of the principal difficulties in the way of a resumption of specie payments. As fast as gold is mined and coined it is shipped out of the country, to liquidate commercial balances.

If the tariff should be so altered as to make it really protective, with a well contrived sliding scale of duties, domestic production would be quickened, the shipment of coin stopped, and a solid basis soon be laid for a return to specie payments.

The means of the masses of our people to pay would be enlarged, and their consumption would rise somewhat in proportion to their means. This would soon clear off accumulated stocks and create a steady demand for more.

BEFORE a foreigner can become an American citizen he is obliged to forswear allegiance to his native land. Thenceforward he pledges himself to be not of his old nationality, but an American.

Some men who had taken this oath, failing to remember it, have recently gone back to the countries in which they were born, and in attempting a revolution, have committed crimes against the laws, been arrested, convicted and punished. Others are exposed to like danger.

Now, we insist that our government shall make no distinction between native and naturalized citizens. So much is demanded by the laws and by public policy.

If native-born citizens should go to any country in Europe and engage in revolutionary enterprises, they would run their own chances. In case they should fail, and be captured, all our government could do for them would be to see they were fairly tried, and to interpose friendly offices to mitigate sentences or procure pardons.

So much the government can and ought to do for naturalized citizens in the same predicament. We do not see how it can go farther.

Pennsylvania on Impeachment.

The following is the vote of the Representatives in Congress from Pennsylvania on the resolution "That Andrew Johnson be impeached for high crimes and misdemeanors," on Saturday, December 7, 1867:

Progress of the Pacific Railroad.

A correspondent of the Chicago *Republican* writes as follows from the far West:

"Thirty days more of working weather and the iron horse will snuff the mountain breeze upon the summit of the Black Hills, eight thousand two hundred and forty feet above the ocean level, or more than four thousand feet higher than the summit of Mont Cenis, the greatest altitude reached by the railroad over the Alps, and claimed to be the grandest achievement of engineering skill yet accomplished in Europe. On our outward trip we passed the track-layers four miles east of Cheyenne, which is not a 'city on wheels,' but a real, and destined to be a great city. Only three months old, it now has four hundred houses and over three thousand inhabitants. Many of the business houses are large and substantial, built of stone, adobe, grout, brick, logs and boards. The Rollins House is a large and first-class hotel, and General Stevens is erecting an immense stoneware and commission house. The town has all the appearance of permanence, and will undoubtedly continue to grow rapidly until it reaches a population of eight or ten thousand. Beautifully situated upon the level plain, in full view of the snowy range of mountains, Pike's and Long's Peaks looming up grandly in the distance, it may some day rival in splendor the historic renown of 'Palmyra, fairest city of the plain.' The summit of the road is reached at Mulley's camp, the altitude being eight thousand two hundred and forty feet above the ocean level. This is the greatest altitude ever reached by a railroad, and should good weather continue thirty days longer, which is thought very probable by old settlers in this region, the track will be laid, and the locomotive will meet the first blast of the winter winds as they sweep across from the Pacific to the Atlantic ocean. What a grand and memorable celebration of the new year 1868! Across Dale Creek will be the heaviest work done in the Black Hills. The valley to be spanned here is six hundred and ninety feet, and the depth one hundred and twenty-five feet. It was the intention at first to bridge this awful chasm, but it is now decided to tressel and fill up with rock and gravel. An immense quarry of the finest building stone is found near this point above the surface, and hence easy of access. A heavy force of workmen are busy getting out stone for abutments, and it is hoped that early next spring the work may be completed for the passage of cars. Dale Creek is alive with large mountain trout, and game abounds in the valleys below. The scenery in the vicinity and for miles above and below is picturesque and highly romantic. If we mistake not, this will become a favorite summer resort for pleasure seekers and tourists. Crossing Dale Creek, we passed Miller's and one or two other camps, and by the middle of the afternoon came in sight of the famed Laramie Plains, beyond which loomed up the snowy peaks of the great American Alps, seemingly only a few miles distant, and fully fifty miles away. The Laramie Plains vary in width from thirty to fifty miles, and although a beautiful valley, covered with grass, and watered by numerous streams that run down from the mountains on either side, it has an altitude above the ocean level of from 7,000 to 7,500 feet. It is a magnificent grazing country, and will produce a variety of vegetables and small grains."

London Police Tactics.

Before the establishment of the new police, the only method of dealing with desperate mobs was by using the military and militia against them. This weapon of oppression, however, if used with effect, was apt to leave behind a bitter enmity to the authorities, and a spirit of disaffection which was not easily calmed down. Riots in the old days were, consequently, of a very dangerous character. Let us instance the Lord George Gordon riots and the Bristol riots in 1812, in which the military were not sparing of their weapons when they began to use them. Our statesmen clearly saw that such means of repression were dangerous, and the institution of the policeman, with his oaken staff, was much more calculated to act effectually against a crowd. But there is a still more effectual weapon, and that is by the performance of a clever maneuver, to break up any mob, however dense, without causing needless irritation. At the Hyde Park gathering on a Sunday in July, 1865, constables were marched in sections of double files of fifty each. These sections, moving a few yards apart, easily cleave the densest mob; and then, the separation being effected, the order is given to face right and left and march. In this manner the crowd is riven into a hundred portions, which are powerless henceforth for harm, the mounted police following up this strategem by gently moving their horses in every direction among the mass, thus completing the disintegration brought about by the foot police. Our London mobs have not the fighting instincts of the Parisian workmen, neither have they the organization and military knowledge which makes that population so dangerous in times of excitement; indeed they are not nearly so dangerous or pugnacious as the Bristol or Birmingham boys; hence the police have little to fear from them, even in their worst moods. Probably, had the excited mobs of either of the towns mentioned pulled down the Hyde Park railings, they would have gone home satisfied with that amount of mischief.—*Cassell's Magazine.*

A Belgian Burdell-Cunningham Case.

An extraordinary trial, arising out of the substitution of a child, has just taken place before the Court of Correctional Police of Brussels. A working miner, named D—— had been married three years without his wife presenting him with any family. His desire for a son was, however, so great, that he at length gave notice to her that he should separate from her if his wishes were not realized. In this difficulty the woman applied to a midwife, who, for a sum of 300fr. agreed to procure the object desired. An unmarried young woman was found who was about to become a mother, and who, for 20fr. and a new dress of about the same value, agreed to part with her child, which would otherwise have been a burden to her. The wife had persuaded her husband that she had been several months pregnant, and the delivery of the young woman having arrived, Mme. D—— removed to the house of the midwife under the pretence of passing the period of her confinement. As soon as the child was born, D—— was sent for and the infant presented to him as his son. So far the comedy had succeeded; but the midwife, in order not to compromise herself too far, had the child regularly registered under the name of its real mother.

D—— did the same for his supposed son, but when the medical officer called to verify the two births, the second infant could not be accounted for; an explanation followed, the result of which was that the present prosecution was instituted against the three women. The facts having been admitted, the midwife was condemned to a year's imprisonment, the woman D—— to a month of the same punishment, while the real mother was acquitted. The child, however, died on the thirteenth day after its birth. The most curious part of the affair is that the husband, notwithstanding the judgment of the court, still maintains that his wife was really pregnant, and that the child was hers.

GENERAL NEWS.

—Four thousand turkeys daily are shipped to Boston from Paris, Ky.

—Maysville has a cave which it says needs only the investigations of an explorer to give it equal celebrity with the Mammoth Cave. Why don't the Maysvillians explore it then? Mammoth Cave can stand it, if they can.

—A "difficulty" occurred at Irvine, in Estill county, on the 26th ult., between R.L. Riddle and Satawhite Tyra, in which the former was instantly killed, and the latter mortally wounded. A Mr. Tipon was also shot in the arm.

—Prentice spoils the felicity of the runaway couple who were married on the suspension bridge at Cincinnati, by the information that the jurisdiction of Kentucky extends to low water on the Ohio shore, and their marriage is void through miscalculation.

Kentucky must be a cheerful place. We clip the following pleasant little items from an exchange: On the 29th ult., John Neely shot and killed George Phelps, about seven miles from Bowling Green. Neely voluntarily surrendered himself to the authorities.

—An unprecedented fact has just occurred at the Paris Sorbonne. A deaf and dumb young man, M. Dusuzeau, has lately passed his examination as Bachelor of Sciences. He answered with great talent, in writing, all the questions put to him. This success, unhoped for a few years since, does infinite honor to the Paris Institute of the Deaf and Dumb.

—The marine disasters to American vessels by fire, wreck, collision or other mishaps at sea during November, involved the loss of fifty-one vessels, valued at $1,586,200. There were lost two steamers, six ships, two barks, nine brigs, thirty schooners, and two sloops. During the eleven months of 1867 that have passed by, there have been 483 American vessels lost, valued at $19,179,200, as compared with 518 vessels, valued at $27,132,800 during the same period of 1866.

—Two weeks ago a Mrs. Gertrude A. Quimby commenced legal proceedings against her husband, Benjamin F. Quimby, a well known citizen of Chicago, for divorce, alleging that he had been guilty of adultry with her mother. Mr. Quimby has finally been heard from. In reply, he charges Mrs. Quimby with adultry with her family physician, Dr. Stephen R. Fuller and has caused the arrest of the Doctor for seduction and adultry, laying his damages at $20,000. The Doctor has been held to bail in 7,500.

—Pennsylvania takes the lead among the States, in the annual amount of iron mined; Michigan ranks next; New Jersey, New York, Missouri, Massachusetts, Connecticut, Maryland, New Hampshire, and Ohio, follow in this order. New Hampshire and New Jersey produce mainly the magnetic ores; New York the magnetic and hematites; Connecticut, hermatites; Pennsylvania and Ohio furnish the argillaceous ore of the coal measures, and Missouri and Michigan mine the compact red and black oxides.

—A reverend doctor, writing in the *Independent* take the ground that the "reality and personality of the Devil and his angels is just as clear and positive as the Christology or theology of the Bible." He also holds that he who disbelieves in the existence of a personal devil is an infidel. Thus the promise of Christ that "whosoever believes in ME, shall not perish, but shall have eternal life," would seem to require to be supplemented by belief in an antichrist before it can be made efficacious in an orthodox sense.

—Last Thursday evening the Select Circle of Bald Heads, all colored men of Hartford gave their inaugural ball in that city. Great preparations were made for this event, and everything was in the most recherche style. The programmes were printed on the heaviest of white silk, and the supper was an elegant and luxurious feast. Among the guests were distinguished colored men from other cities, and the officers of the Haytien war steamer in New York harbor. The affair was very aristocratic, exclusive and brilliant.

—Five men from Sonora were camping out near San Luis Obispo, when one of the party was suddenly awakened by the outeries of his bed-fellow, and the ferocious growling of some wild beast. He found the brute in bed with them, standing over his face, and having hold of his companion by the arm. He instantly jumped up and seized it by the neck, and began pounding and kicking it so vigorously that the beast, a large California tiger or lion, released its grasp of the man and put off into the woods. The wounded man's arm was very painfully injured, although not severely.

—The *Maine Farmer* tells of a young man and woman who got married in Bethel last winter, and the next day the happy couple started on their honeymoon tour into the woods, where he had contracted to cut a large quantity of wood. He built a camp, where she spends her time in promoting the comfort of her husband, and on every Saturday night they make their appearance in the village to secure fresh supplies for their next week's work, and return on Monday morning to their camp home as happy as king and queen.

—On Friday last a gentleman residing in Milwaukee was walking along the street, when, as he passed a shabby female, he heard a baby voice call him "papa" from the woman's shawl, and then for the first time noticing her, saw her awkward attempt to stop the child's crying. To his surprise he found the child to be his own, which the woman had stolen from the nurse, who had left it in its little carriage for a few minutes. He took the youngster home, where he found a heavy time in progress on account of the loss of the baby.

—The stupid conduct of the young King of Bavaria is said to be due, in great part, to the stupidity of his father, who educated him like a martinet. He allowed him only one mutton chop for breakfast. The first order the young King gave after his father's death was: "Two mutton chops for breakfast. I am master here now." He had never been to a theatre. The first night he visited an opera house. Wagner's "Tannhauser" was played. He was so delighted that he thought Wagner a demigod. This is the origin of his passion for Wagner.

—The King of Prussia and the ex-King of Hanover have made a bargain about property. The deposed George is assigned the Castle of Herrenhausen, with all its appurtenances, and the domain of Callenburg. As compensation for the revenues which King George received from the royal domains and forests, as well as for his castles, gardens, and other estates, Prussia grants interest on the sum of 11,000,000 thalers in four and a half per cent. state bonds, and 5,000,000 thalers ready money. These bonds and the capital are to be deposited in Prussia, the King of Hanover meanwhile receiving the interest of the same. King George, besides, remains in possession of his English funds and the royal plate.

Faith Well Founded.

In old times, at the commencement of every season, it was the fashion to take a strong cathartic as a safeguard against a change of temperature. It was a worse than senseless practice. The people of our day understand the matter better. Instead of depleting the system they reinforce it. In the method they adopt they exhibit a wise discrimination. Instead of resorting to the vitiated stimulants of commerce, or any of the compounds derived from them, they put their faith in the only absolutely pure invigorant procurable in the market—HOSTETTER'S STOMACH BITTERS. Their faith is well founded. Never has any tonic medicine been prepared with such scrupulous precision and conscientious care. It is a vegetable compound of which every ingredient is sound, wholesome and medicinal in the true sense of the word. Now, we have the prominent national complaints. One-half of the adult population of the United States suffer more or less, either from diseases of the stomach, derangements of the liver, or affections of the kidneys. In no other land under Heaven are these maladies so general as in this country, and HOSTETTER'S BITTERS is for them all, unless organic in their origin, and therefore beyond cure. And let those who are fortunate enough to be exempt from them at present understand one great fact, viz: that an occasional use of this vitalizing tonic will as certainly prevent them as the sun will prevent the earth from freezing where its genial beams descend.

Important to Country Merchants.

Merchants visiting the city to lay in their supply of goods would do well to call at the great medicine emporium of DR. KEYSER, 140 Wood street, and get a supply of his invaluable PECTORAL SYRUP AND BLOOD SEARCHER, the former of which has been used in the Doctor's practice for over twenty years, and has saved thousands from the consumptive's grave. DR. KEYSER'S PECTORAL SYRUP will invariably give satisfaction to all persons afflicted with coughs and hoarseness and the usual pulmonary maladies incident to this season of the year, whilst DR. KEYSER'S BLOOD SEARCHER is daily curing some of the most hopeless cases of disease, of a class little cared for by physicians, and usually deemed incurable, such as cancers, white swellings, scrofulas, tetters. It is exceeding proper now, when the change from fall to winter is about to occur, that most of those who are debilitated and prostrated by sickness, should resort to some such a remedy as DR. KEYSER'S BLOOD SEARCHER, which will not only cleanse and purify the natural channels of the human system, but at the same time sweep off debility and reinstate vigor and nervous energy. It is wholly unlike most stimulating compounds and bitters, which for a while spur, but afterwards sink into greater prostration. Country merchants and farmers cannot do better than to purchase from half a dozen to a dozen of Dr. Keyser's medicines, as in doing so they will confer lasting benefit upon all whose health and life has been prolonged and improved. These two medicines of Dr. Keyser's have acquired a hold on the affections of the people commensurate only with their superative worth. Ask for DR. KEYSER'S BLOOD SEARCHER and take no other, at 140 Wood street. Resident consultation office, 120 Penn street.

1786. PROSPECTUS. 1868.

THE PITTSBURGH GAZETTE!

The largest daily paper in the State of Pennsylvania, enters the 82nd year of its existence with increased facilities for disseminating the current news of the day, and for rendering good political service in the important Presidential Canvass of 1868. The forthcoming session of Congress promises to prove one of the most important held since the formation of the Government, and the proceedings will be anxiously watched by the intelligent masses. In view of the deep interest centered in the proceedings, the proprietors of the GAZETTE have made arrangements for daily dispatches and letters during the session, from a highly intelligent correspondent, who enjoys the confidence and friendship of the leading members of the Senate and House, the heads of the various Departments, and the leading politicians who frequent Washington, so that readers can depend on receiving the first, fullest and most reliable intelligence from the seat of Government.

The proceedings of the State Legislature, at its forthcoming session, will also prove interesting, inasmuch as many questions of importance will come up for legislation. The GAZETTE will keep at the State Capital, during the entire session, an intelligent and faithful correspondent, who will promptly report the proceedings by mail and telegraph.

It is the only political journal of Pittsburgh which faithfully reflects and steadily advocates the principles held by the Union Republican Party, and interpreted by a loyal Congress.

It gives as much reading matter as any paper sold at twelve dollars per annum, while its price is but eight, being the cheapest as well as the largest newspaper in the Commonwealth.

With the enlargement, every department has been strengthened. The high character of its editorial columns will be maintained, and all questions of public importance will be fearlessly discussed.

The news department will be kept up to the requirements of the day, and in condensed items will faithfully mirror all the transactions worthy of note of the City, State, Country and world at large, and maintain for the GAZETTE the reputation of a live, enterprising and first class family and commercial newspaper.

Ample space has been reserved for market reports, which can at all times be relied upon as correct, as the current quotations for manufactures, farm products, cattle, &c., &c., are daily gathered from actual sales, by faithful and efficient reporters.

The river news is collected with care, and will prove a very interesting feature of the GAZETTE.

The financial news department has been placed in charge of an able and experienced banker, who will render it quite an attractive and useful specialty to bankers, brokers and business men generally.

The religious department will receive the attention due its importance, and will be so conducted as to be pleasing and readable to members of all religious denominations.

The agricultural, art, science, literary, personal and other departments of the paper will be conducted in a manner which will prove satisfactory to the reader.

TERMS OF THE DAILY GAZETTE.

Three Months	$2.00.
Six Months	4.00.
One Year	8.00.

Delivered in Pittsburgh, Allegheny and all the adjacent Boroughs for 15 cents per week, payable to Carriers.

THE WEEKLY GAZETTE.

The WEEKLY GAZETTE has been enlarged to the same size as the Daily, and is now the largest, cheapest and best weekly family newspaper in the State. It should be in the house of every farmer, mechanic and business man. It gives each week forty solid columns of current news by telegraph and mail, the leading editorials of the daily, and a choice selection of literary and scientific items, together with everything important pertaining to the world of politics. Its agricultural columns will be edited in such a manner as to find favor with the farmer and gardener. The market reports of the WEEKLY GAZETTE are by common consent acknowledged to be the standard authority for both buyers and sellers, and in commercial circles in Western Pennsylvania, Eastern Ohio and Western Virginia are without equal. The files of the GAZETTE are used exclusively by the Civil Courts of Allegheny county, as reference in important issues, to determine the ruling prices in the markets at the time of the business transaction in dispute.

Our Agents will favor us by getting up their clubs at once, and not allowing their present ones to expire, as we are anxious that none of our readers should be deprived of a week's news. Additions to clubs can be made at any time, at yearly rates. Postmasters and Merchants are requested to act as Agents.

HEALING WITHOUT DRUGS.
The true curative plan or natural healing art is based entirely upon physiological principles—upon the ACTIVITY OF FUNCTIONS in appropriating or using the LIFE SUSTAINERS, and their nutrient value being assimilated in a manner that is potent in the BANISHMENT OF DISEASE from the system. But before we can heal through the inherent vital properties of the tissues, we bring the RATIONAL MATERIA MEDICA to bear, in DRAWING OUT THE DISEASE MEDICINES, and morbid materials through the activity of the depurating channels, sanatory provisions and safety valves, with which the system is bountifully supplied. But when these are either obstructed or not understood, the penalty is the same; therefore instead of quaking lest we die before we have gained more money than we can use, it is our highest policy to learn first the laws of righteousness in the bodily tabernacle, in order that we may live to inherit our natural wealth of happiness. By our normal tonics, alteratives, stimulants, sedatives, &c., we get the FRIENDLY changes of vital action, without the corrosive wounds inflicted by drugs. By a correct dealing with causes in the province of disease, we eradicate the whole catalogue of parasites, among which are tape worm, erratic worm, &c.; also, tumors, cancers, ulcers, abcesses, dropsy, insanity, diseases of the bone or mailities, ossium and fragilitus ossium, deafness, liver complaint, dyspepsia, gout, rheumatism, neuralgia, and in short every disease that flesh is heir to, provided our remedial plan is strictly adhered to. We do not expect to please all. But those who have been the victims of the empyracism and ingenious lingo of simila similabus curantur, and contraria contrarious curantur practice; and now wish PHYSICAL REDEMPTION, in its broadest sense, can try the Vis-Conservatrix Naturae Method, by giving us a call, at

To the Churches and Charitable Institutions of Pittsburgh, Allegheny and Vicinity.
THE CONVICTION HAVING become deepened in the minds of those most active in the Charitable Societies and Sunday Schools of the city that much effort for Sunday Schools is made useless, and charity to the poor wasted through the lack of a common basis of operation and a mutual understanding among the different bands of workers, the Board of Directors of the Young Men's Christian Association, at the recommendation of its Committee on City Evangelization, have resolved to call a Conference Meeting of representatives from the various churches and charitable societies, for an interchange of views and experience on these most important subjects.
It is earnestly requested that each Church and Association be represented by its Pastor or President and one or more members.

STEAM POWER
BRICK MACHINE,
MANUFACTURED BY THE
PITTSBURGH BRICK MACHINE
AND
BRICK MANUFACTURING CO.
This Machine takes the clay direct from the bank, (without the preparation, by soaking necessary for "soft mud" machines,) and tempers it thoroughly, pressing in steel moulds, brick stiff enough to be packed up eight high in the yard as made. For color with the trowel, bearing hard usage, and making a strong, true wall, there are no better brick known. The cost of making brick by this machine is from 95 cents to $1.20 per 1,000, according to the rates of wages. This we guarantee. The machine is built entirely of iron and steel; and in the best style for strength and permanent use in working clay. Apply for circulars, giving full information, at the office,

DR. J. SARGENT'S
FAMILY MEDICINES.
DR. JOHN SARGENT'S
Anti-Dyspeptic and Liver Pills,
A CERTAIN CURE FOR
Liver Complaints, Dyspepsia, Bilious Attacks, Jaundice, Sick Head-Ache, Colds, Costiveness, &c.

THE EXTRAORDINARY AND increasing demand for my ANTI-DYSPEPTIC AND LIVER PILLS, has induced me to make them more public, in order that their usefulness may be more extensive, and would earnestly beg of those who have tried other medicines and not experienced the relief they anticipated, to try, for once, SARGENT'S ANTI-DYSPEPTIC AND LIVER PILLS. There are no other Pills yet compounded which have given such universal satisfaction, nor do any other Pills meet the requirements of the household as do these.

I cannot, of course, enumerate the diseases for which these Pills are beneficial, but whenever a cathartic is necessary, they will effect a speedy and permanent cure. They remove from the blood all corrupt humors, which are always the cause of the disease; they open those excretory vessels which empty into the bowels; they give a healthy action to the liver, enabling it to throw off all corrupt humors; they promote the secretion of bile, aid digestion, purify the blood, and will, in a short time, restore the body to a state of sound health.

DYSPEPSIA.—This distressing malady—so prevalent in our country—is caused by a want of tone in the stomach, the usual symptoms of which are as follows: A pain or uneasiness upon pressure below the sternum or breast bone, sometimes attended with sour eructation (water brash or heart-burn,) a disposition to vomit, flushes of heat preceding from the stomach, instantly circulating through the whole system; loss of memory; a variable, uncertain appetite; great depression of spirits, inclining to melancholy; weariness and great antipathy to exercise.

It is seldom that all the above symptoms are found in the same patient at one time; any of them, therefore, is a sufficient indication of the presence of the disease and need of this medicine

DR. SARGENT'S ANTI-DYSPEPTIC AND LIVER PILLS, never fail in curing this disease, when taken according to the directions.

I attach a few of the many certificates I could give in such a form as I hope will be satisfactory; but all the certificates I could publish will not inspire half the confidence that one trial will give.

FROM DR. JOHN BUTLER.

LOWELLVILLE, TRUMBULL CO., O.—DR. J. SARGENT—Dear Sir: I regret your want of attention in keeping me supplied with your Anti-Dyspeptic and Liver Pills; they sell so fast in my drug store. I have been using them in my practice also, with the best consequences. I find them the most efficient of any pills I have ever used. I have been frequently astonished at the large amount of bile removed by so small a quantity of pills given. I request you to send me a fresh supply immediately, as I have been sometime without. JOHN BUTLER, M. D.

STEUBENVILLE, OHIO.—DR. SARGENT—I write to request you to send me a box of your Anti-Dyspeptic Pills by mail. I have not been able to get them since I left Allegheny. I cannot do without them; they have done me so much more good than any other medicine I ever used. I hope you will send some down to our druggist, so that I can get them when I want. I am sure they will sell fast if known. Your compliance with the above will oblige yours, respectfully,
JANE WARLOW.

ROCK POINT, BEAVER CO., PA., February 21, 1866.—DR. SARGENT—Dear Sir: After suffering for two years with Liver Complaint, attended with bad cough, and trying several remedies, I was induced to try your pills, which relieved me immediately, and I take pleasure in recommending them to all suffering from these complaints. Very truly, yours, D. D. MORLEY.

ROCHESTER, PA., 1867.—DR. SARGENT—I consider that I owe my life to the use of your pills, before I began to use them I was going down very fast. My physician had done all he could, and I still got worse; but when I began to take your pills I got better, and I have no need of the doctor. I am now seventy-five years of age.
ABRAHAM WALKER.

This is to certify that I have used Dr. Sargent's Liver Pills in my family for the last two years, and I consider them the best medicine I know of.
J. M. DEVINNY.
New Brighton, Pa., July 1, 1867.

DR. SARGENT'S ANTI-DYSPEPTIC AND LIVER PILLS can be had of all Druggists—both sugar coated and plain. Be sure and call for Dr. Sargent's Anti-Dyspeptic and Liver Pills, and take no other.

DR. SARGENT'S
COUGH SYRUP.
An Old Preparation for the complete cure of COUGHS, COLDS, INFLUENZA, CROUP, DIFFICULTY OF BREATHING, ASTHMA, QUINSY, PHTHISIC, ACUTE AND CHRONIC BRONCHITIS, NIGHT SWEATS, BLEEDING OF THE LUNGS, AND ALL DISEASES OF THE LUNGS, THROAT AND CHEST.
DR. SARGENT'S COUGH SYRUP contains nothing injurious, but can be taken by the smallest infant with perfect safety. It does not dry up a cough as most of the quack preparations do that are now flooding the country, but loosens the phlegm from the mucous surface of the Bronchial tubes, and assists its expectoration, at the same time allaying the cough and relieving all pain from the chests and lungs.
DR. SARGENT'S COUGH SYRUP is of incalculable benefit in Whooping Cough, subduing it in a few minutes, and specially effecting the radical cure; and for Croup or Hives it is the most efficient and reliable remedy ever yet discovered—one dose taken according to directions often saving the life of the child.
Sold by all Druggists and Dealers in Medicine. Buy a bottle and give it a trial.

DR. JOHN SARGENT'S
Diuretic or Back-ache Pills,
FOR ALL DISEASES OF THE
KIDNEYS AND BLADDER.
These Pills have now been before the public in this neighborhood for upwards of thirty two years, during which time they have been eminently successful in the removal and cure of these dangerous and troublesome diseases, which often baffle the skill of the best Physicians. This fact is well attested by the number of wonderful cures they have effected, some of long standing. A sense of duty and the urgent request of those who have experienced the beneficial effects of the medicine, impels me to make it more generally useful, by giving it a much wider circulation. Believing that there is no other medicine published for these complaints that can be carried so every man's door without the aid of a physician; and it is a well known fact that there are thousands who are either too far removed from or are unable to procure the aid of one who will be of service to them.
The disease commonly called Back-ache, and to which these Pills are peculiarly applicable, is found to exist in the aged or infirm, the laborious and the sedentary. It is caused by obstructions or chronic inflammation of the kidneys, ureter, bladder, &c., and is known by a deep-seated pain in the small of the back, sometimes extending round the loins to the abdomen; or a dull, heavy, or numbing pain, extending from the back down the inner extremity of the right abdomen to the inner part of the thigh. Great difficulty is experienced in voiding the urine, and many persons afflicted with this troublesome complaint are unable to endure violent exercise; many, when stooping, have danger in assuming an erect position. Having had numerous opportunities for forty years of testing the virtue and efficacy of this medicine and with the advice of those who have experienced the good effects of it, I now respectfully submit it to the public, believing that it will be generally beneficial. The few certificates I publish are from this immediate neighborhood, and can be referred to at any time.

CERTIFICATES.

SIR—This is to inform you that I was very much afflicted with violent pain in the back, and great difficulty in voiding urine. I was recommended by Mr. McClintock to take some of your Diuretic Pills, which I did, and was perfectly cured, and I have not felt any of the complaint since, being eighteen months.
MERCER COUNTY. JOHN STEWART.

DR. SARGENT—Sir: I have to inform you that I believe I owe my life entirely to taking some of your Pills. I have been taking medicine for several days from my physician without effect, being confined to bed and in great agony, when my husband applied to you and was told by you that I had the gravel. I took the first dose as you directed, and experienced relief, and my disorder left me after taking the remainder.
ALLEGHENY. MARY REHRET.

DR. SARGENT—I was for a long time afflicted with what I thought to be rheumatism in my back, so that when I stooped down I could scarcely right myself again. I took two boxes of your Pills, which cured me, and I have not felt it since. I have since given a great many away to others, who have found the same benefit.
J. WILLIAMSON.

CROWN'S BOTTOM INN.
SIR—I was for a long time afflicted with a pain in my back. I was advised by Mr. Williamson to try your Pills. He gave me some, which completely cured me. I have since obtained two boxes, and gave them to others in our town with the same effect; and if you had charged ten dollars for them I would have paid it cheerfully.
LEWIS HUMISTON.

AKRON, OHIO.
SIR—I have been afflicted with the complaint described in your papers for the last five years, during which time I have tried everything I could hear of without effect, till I met with your Pills. I have now taken half a box, and want more to continue taking them, as I feel better now than I have felt for four years, and I have no doubt the next box will cure me.
J. MILLER.

ALLEGHENY.
SIR—I have been troubled with back ache for four or five years, so that at times I could not rise up or lie down without pain. I took part of a box of your pills, which completely cured me, and I have been at perfect ease ever since. I do, therefore, confidently recommend them to others.
PETER CRUMPTION.

ALLEGHENY.
DR. SARGENT—SIR: I take this opportunity to state that your Diuretic Pills are the most effectual medicine for the back ache I ever met with. I can confidently recommend them from experience.

AUCTION SALES.

BY A. LEGGATE.

ELM COTTAGE, OHIO AVENUE, ALLEGHENY, AT AUCTION.
The residence of Mr. JONATHAN GALLAGHER, on Ohio avenue, Allegheny city, will be sold by auction, on the premises, on FRIDAY AFTERNOON, December 13th, at 2½ o'clock precisely. The lot fronts 122 feet on Ohio avenue, and extends back 240 feet to Locust street. The house has an elevated position, with 200 feet of lawn, and sycamore trees in front. It contains eight spacious rooms and three finished attics, all well lighted and well ventilated. The two parlors, dining room and kitchen are each 21 by 17½ feet, with 13 feet ceiling. The main hall is 10 feet wide by 44. There is a railed promenade on the roof, from which very fine views of the river, city and country are obtainable. The location is very desirable for a city residence. The street cars pass the door.
Terms—One-third cash; balance in three years.
Mr Gallagher wishes it understood that he does not sell with a view of realizing a fabulous price, but in order to move in the country in the spring.

A GREAT FAMILY CONVENIENCE.
A new and novel arrangement for having
HOT WATER BOILERS
attached to the back end of common cook stoves, so that the waste heat which goes up the stove-pipe heats all the water needed in an ordinary sized family, by passing the blaze directly through the boiler, which sits over the pipe hole of the stove. The new arrangement can be put on to any No. 7, 8 or 9 common Cooking Stove, of any manufacture. Any person having a TRIUMPH, VICTORY, BLACK OAK, BEAUTY or UNION STOVE, or almost any other Cook Stove made in the Union, can have Boilers attached to their Stoves, including the Attachment, the Boiler and Lids, and Stub Cock, for the moderate cost of SEVEN DOLLARS, by applying to

The Cincinnati *Commercial* says that very few Cincinnatians know what ward they live in. We hope Pittsburghers are not so stupid.

Lancaster, Penna., has a monumental fair. We do not mean a fat beauty, but a regular bazaar, from which there has been some money made.

Baltimore county, Maryland, is just now suffering with the Rinderpest. One farmer has lost twenty-one head of cattle by it, and others have lost more or less.

The heirs of Anneke Jans are still carrying on their suit against Trinity Church. Even if they should win, which seems impossible, it will take so long that there will not be a dollar apiece all the way around after the lawyers are paid.

The little towns in Michigan are running over with scandal, latterly, and bigamy, murder, robbery, and some more of the worst crimes, are occurring there in quantities large enough to furnish English novelists with subjects for a year.

It is strange that so many scientific, brave and determined explorers should spend so many weary years in searching through the Arctic regions, and that still the discovery of a great Arctic continent should be made by a captain of a whaling vessel, who was not there for that purpose.

The *Round Table* Association is about to commence the publication of a new paper called *The Week*, which is to consist exclusively of extracts from other journals of this and other countries, a sort of *Galignanis Messenger* for this continent, and a very pleasant sort of paper to the general reader.

Mr. Gounod refuses to allow his opera of Romeo and Juliet to be arranged for the piano, or to be cut in pieces of suitable length for the salon. Mr. Gounod, in doing this, does a very silly thing, and we pity him for it. He might as well refuse to allow the winds to blow, or Fifth street to be disgustingly filthy in time of thaw.

Two men are to sneeze for the championship, in the Opera House at Chicago. We would suggest that a few should also try for the championship of the possessors of colds in the head. We know some very able cold-in-the-head-ists, and the man who could overcome them in a fair trial in their own particular line would "deserve a great deal of credit."

A bloody row occurred in Detroit on Friday evening, occasioned by the green-eyed monster. Two lovers to one girl is often too much, and so it proved in this instance, for a number of persons were wounded, and the fair object herself had her skull split with a misdirected boulder. The gentlemen and their friends were sent to jail. The lady, who is known as "Curly Molly," is supposed to be dying in a hospital.

Here is an idea for our advertising insurance friends, old but not much known. An English paper states that the following lines were inscribed about the year 1777 over the door of one of the earliest established insurance offices:

"Come all you jolly Britons who love your blooming wives,
Insure large sums on your precarious lives;
So that your widows may be rich when you yourselves are rotten,
And they may live in happiness when you are quite forgotten."

For some years we have been accustomed to regard Paris as a paradise of good order, kept by angelic *gens d'arme*, but the following, clipped from a foreign paper, shows that somethings are possible to rowdies even in Paris, and we think also shows that the paralyses of fear which has overspread Frenchmen, has been partially aired by the recent events which have proved to fallibility even of the great Napoleon:

> A Paris newspaper says one night last month all the iron chairs and benches for the use of the public on the line of the Champs Elysees, and on the boulevards from the Madeleine to the Place de la Bartille in Paris, were knocked about, broken, and rendered unfit for service. A great number of persons must have been engaged for some hours in this work of vandalism; and it is a matter of just surprise that none of the policemen on duty over that long line of public road should have discovered the perpetrators.

The New York *Evening Post* amuses itself and its readers by accusing Mr Walker of not knowing what is a million. "Mr Walker, in his letter, talks of ten thousand millions as 'a billion;' whereas it is a million of millions," says the *Post*, which does not seem to have the slightest idea of making anybody but Mr. Walker ridiculous, whereas most of the people in this country, we think, take the European standard, and certainly the standard all over Europe, excepting, perhaps, in the little islands north of France, is one thousand millions to a billion. Here, it can not be of any great moment, as none of us are likely to become billionaires, but in France, it is five times as easy to do so, and we do not believe that there is a billionaire in France, would not sell out for a thousand millions.

FOR SALE—REAL ESTATE.

FOR SALE—The best Farm in Fairfield township, Westmoreland county, Pa., containing about 260 acres, situated six miles south of the Pennsylvania Railroad, at Bolivar Station. The improvements are a large hued log house, with nine rooms, a good cellar; a frame bank barn, 40x70, with the best of stabling. Two apple and one peach orchard. The whole farm is under a high state of cultivation; the fencing is all No. 1; the soil is good, and is well watered; about 200 acres cleared, the remainder in good white oak timber. This property is offered at the low price of fifty dollars per acre. Possession immediately.

Also, a Farm of 312 acres in Penn township, Westmoreland county, 220 acres cleared and under cultivation, 92 acres of first-rate white oak and other timber, 2 dwelling houses, 1 of them 2 stories, the other 1 story, with a tenant house, with a first-rate Steam Sawmill in good running order; young orchard of grafted fruit. The land is rolling; every acre is tillable, with limestone soil and subsoil, with never failing springs; within one hundred rods of the Penna. Central Railroad; 28 miles east of Pittsburgh, and three miles west of Greensburg. This farm is pleasantly and eligibly situated in a good neighborhood; every acre is underlaid with coal. The title is good.

Also, 60 acres in Derry township, Westmoreland county, Pa., within four miles of Blairsville, and three miles of two stations on the Pa. R. R. The improvements are, a new frame dwelling house and outbuilding; a new steam saw and grist mill, with two run of burrs, two bolting cloths, and all the necessary fixtures, and a young orchard of choice fruit trees. The whole tract is underlaid with a six foot vein of coal, now opened, and an abundance of limestone. This property will be sold very low, if applied for soon.

Also, the best Hotel in the Borough of Indiana, the county seat of Indiana county, Pa. This is a large four story brick building, of 54 rooms and a basement under the whole house, and is situated on the corner of Philadelphia and Clymer streets, on a lot 60 by 200 feet; and on said premises is a frame house 24 by 60 feet, used as a wood house in the lower story and ball room above; also, a frame stable 50 by 60 feet; also, a half lot, 50 by 100 feet on which is a large frame stable, used as a livery stable. The whole property has recently been painted and repaired throughout, and is one of the best locations for a public house in Western Pa., and will be sold very cheap if applied for soon.

Also, a Farm of 152 acres, at half price, to a cash customer. This farm is in Derry township, Westmoreland county, Pa., within two miles of Latrobe, a station on the Penna. R. R.; 100 acres of cleared land, under good fencing, the residue 52 acres in good white oak, black oak, hickory, black walnut and locust timber. This is a first rate farm, in a high state of cultivation, with good and comfortable buildings, a frame house of 8 rooms; large barn, 50 by 85 feet, and has coal and limestone under the whole tract, and is convenient to churches, schools, mills, &c.

5,000 ACRES OF VALUABLE Timber, Coal and Mineral Lands FOR SALE.

Situate on the line of the Pennsylvania Central Railroad, in Cambria county, within a short distance of Wilmore station; has a frontage on the Railroad of nearly three miles. Several veins of the best quality of pure rich bituminous coal underlie the whole tract. The veins rise gently from the Railroad towards the rear of the property, thus making it favorable for mining and easily drained. There is a large market for coke and it will cost but little to manufacture it. The property contains, besides the coal, several kinds of stratified IRON ORE; also LIME STONE. Fire and Potter's clays, sand stone for building and for glass manufacturers. Not far beneath the bed rocks of the coal formation lies a valuable bed of Iron Ore, which has been opened and worked westward. A great portion of the tract is covered with valuable timber of large growth, such as Ash, Cherry, Linn, Poplar, Oak, &c. The facilities for transporting this timber, when manufactured into lumber, either east or west, are unsurpassed. There is a water power Saw Mill on the extreme part of the tract, and at the Railroad station there is an excellent steam Saw Mill, recently erected and now cutting 10,000 to 12,000 feet per day. The demand for lumber at this point is constant, and a much larger supply could be readily sold at the mill, while there is ample room and timber on this property for several such mills.

The improvements on the property are worth from $40,000 to $50,000. There are two large mansions built for former proprietors in elegant style; a large store house, shops, &c. and about ten tenements for workmen, with stables, &c.

These lands are also well adapted to farming purposes, and under proper agricultural treatment would yield good crops while they are specially adapted to grazing purposes.

ORDINANCES.

A SUPPLEMENT TO AN ORDINANCE passed the 4th day of November, A. D. 1867, entitled "An Ordinance relative to the Laying of Gas Pipe."

SECTION 1. Be it ordained and enacted by the Burgess and Town Council of the Borough of Lawrenceville, and it is hereby enacted by the authority of the same, That no other Gas Company had received the privilege of introducing gas into said borough in competition with the Lawrenceville Gas Company: Provided, the said Lawrenceville Gas Company will furnish gas to the said borough, and the citizens thereof, at as low rates at all times as those now charged, or that may at any time hereafter be charged, by other companies similarly situate; and provided, further, That the said Lawrenceville Gas Company shall commence and prosecute operations within six months from the passage of this ordinance.

SECTION 2. That when any street, lane or alley of said borough shall be opened by the said Gas Company a distance not exceeding in length 400 feet, for the purpose of laying down, relaying and repairing the pipes as aforesaid, the same shall not be kept open or obstructed for an unnecessary length of time, but shall be enclosed and repaired, and all rubbish and dirt occasioned by the opening of any street, lane or alley as aforesaid, shall be promptly and speedily removed by the said Gas Company, at its own proper costs and charges.

SECTION 3. In the opening of any street, lane or alley as aforesaid, the said Gas Company shall use all necessary precautions to protect the lives and property of the citizens from accident and damage. It shall erect or cause to be erected all necessary barricades to prevent all such accidents and damage, and shall not allow any part of its works or apparatus necessary for the preparation of gas to be so situate as to endanger the property of any citizen or become a public nuisance.

SECTION 4. That for any violation of the provisions of this ordinance the said Gas Company shall, upon conviction thereof before any Justice of the Peace of the county of Allegheny, forfeit and pay the sum of twenty five dollars, and for every hour's continuation thereof after such conviction, the further sum of [illegible] dollars; provided, that the recovery of any such fine or fines shall not bar or in any manner interfere with the right of said borough or any individual or individuals to maintain a civil action for any damages which they may have sustained by any violation of the provisions of this ordinance by the said Gas Company. de5:

AN ORDINANCE for the Grading, Paving and Setting with Curb of Church street, from its intersection with Lawson street southwardly, to the Borough line of the Borough of Lawrenceville.

SECTION 1. *Be it ordained and enacted by the Burgess and Town Council of the Borough of Lawrenceville, and it is hereby enacted by authority of the same,* That the Street Committee, in connection with the Borough Regulator, be and they are hereby authorized and empowered to invite and receive proposals for the grading, paving and setting with curb that portion of Church street extending from the intersection of said street with Lawson street, southwardly to the borough line, and to contract therefor with the lowest and best bidder, at their discretion.

SECTION 2. That the expense of grading said street shall be paid out of the Borough Treasury, as provided for by existing ordinances, and for the purpose of defraying the cost and expense of paving and curbing said street, there be and there is hereby levied a special tax to be equally assessed on the several lots bounding and abutting on said street, in proportion to the feet front thereon, and comprised and bounding and abutting as aforesaid.

SECTION 3. That so soon as the cost and expense of paving and curbing said street is fully ascertained by the Borough Regulator, it shall be his duty to assess and apportion the same among the several lot-holders owning property on said street, according to the rule herein before indicated, and thereupon to give notice thereof to the owner or owners of said lot or lots respectively, or to the agents or guardians of such owner, and make return of such assessment to the Treasurer of said Borough.

SECTION 4. That it shall be the duty of the Treasurer of said Borough, on the return so made, to cause notice to be given to the parties on whom assessments have been made as aforesaid, that unless the amounts of such assessments are paid to him in thirty days from the date of such notice, he will proceed to collect the same in the manner provided by law.

Court of Quarter Sessions.

THURSDAY, December 10.—Court convened at the usual hour, Judge Sterrett presiding.

In the case of Edward McCullough, colored, indicted for the larceny of a coat and vest, on trial at adjournment Monday, the jury returned a verdict of "not guilty" and the defendant was discharged.

ASSAULT AND BATTERY.

John Payne was indicted for assault and battery. The jury found a verdict of guilty, and the defendant was sentenced to pay a fine of one dollar and the costs of prosecution.

A HORSE THIEF.

Hiram Daily was indicted for the larceny of a horse and buggy, belonging to James R. Newton, a resident of Sharon, Mercer county. The prosecutor testified that he had hired a horse and buggy for the purpose of going a short distance, but that he never returned them. The defendant was arrested in Allegheny, about October 1st, where he had sold the "rig" for $85. The jury found a verdict of guilty. Sentence deferred.

CROSS SUITS.

Officer Wallbank, employed at the Connellsville Railroad depot, on Grant street, was indicted for committing assault and battery upon William Carr. The prosecutor had some dispute at the depot about exhibiting his ticket before entering the depot yard, as required by the regulations of the Company. Officer Wallbank attempted to arrest him, and resistance being offered, the assault was committed. Wallbank also prosecuted Carr, and both cases were tried at one time. The jury found a verdict of guilty against Wallbank, and in the case of Carr not guilty, and prosecutor Wallbank pay the costs.

SUNDRY PROCEEDINGS.

The case of the Commonwealth vs. Andrew Arent, Justice of the Peace of Reserve township, indicted for assault and battery, Albert Knoer, prosecutor. The prosecutor alleges that he visited the office of the Justice to recover a mule which had been seized and taken through some mistake, and on making his business known, was kicked out of the office by the defendant. On trial at adjournment.

Escaped from Jail.—Thomas Whittaker and Benjamin Clawson, confined in the Washington county jail, made their escape on Sunday evening. Whittaker, it will be recollected, was tried for participation in the Sproull murder, but acquitted. He was confined on a charge of larceny, as also was Clawson. A reward is offered for their apprehension.

Pocket Picked.—A citizen of Duquesne borough, slightly intoxicated, while passing through the Diamond market yesterday, was accosted by three men rather familiarly, and while one embraced him one of the others picked his pocket of eighty-five dollars. The scamps had made good their escape by the time their victim discovered his loss.

Another Bridge Case.—Hugh Boyle, night watchman at the St. Clair street bridge, yesterday made information before Alderman Humbert against A. Greenawalt, of Allegheny City, for fast driving over the suspension bridge. He was arrested and released on payment of costs.

Grant Nominated for President.

[By Telegraph to the Pittsburgh Gazette.]

PHILADELPHIA, December 10.—The Union League of this city has nominated Gen. Grant for President.

—A new aspirant for ambulatory honors, in the person of a Madam Ponialosky, a native of Poland, and said to be a lady of rare beauty and grace, was advertised to give an exhibition at the Driving Park, in Cleveland, on Thursday afternoon, when she engaged to walk three miles in thirty minutes around the race course. Madam Ponialosky has already accomplished the wonderful feat in her own country of walking one hundred miles in twenty four consecutive hours, which she accomplished in 1863, starting from a point in Poland called Crakovia, clearly demonstrating her ability at that time to get over the ground at a marvellous rate. Following this exhibition Senor Antonis, one of the "stars" at the Theatre Comique was to walk one hundred and fifty yards on his hands in ninety seconds. Weston will have to look to his laurels.

—A year or two since the poor-box at St. Mary's Cathedral, San Francisco, was robbed, and, in order to prevent a recurrence of the theft, a pipe was connected with the bottom of the box, through which the contributions slipped immediately into a reservoir in the basement. An ingenious rascal, however, recently found his way to the treasury by cutting the pipe below the box, stopping it so as to prevent the money flowing down, and extracting the accumulation at his leisure when his circumstances demanded it.

—The great mania is the Indian necklace of thirty rows, and the new style of jewelry which is not so rich as becoming. The Metternich green is as much in vogue as the Bismarck brown; but nasturtium, or capucine, is the great gun. The odalisque band and sash are made of plaited material round the waist, and the sash ends are ornamented with fringe. They are worn on the left side in front. The duchess it is, which, passed through rings, hang down behind.—*Paris Cor.*

—The new costume in Paris just touches the ground, and has cross-cuts all round; it is made of cloth and fringed under the cross-cuts with chenille. Dark blue and dark green are the favorites. The mantle is loose, fringed round, and the sleeves are very full and flowing.

FINANCE AND TRADE.

OFFICE OF THE PITTSBURGH GAZETTE,
TUESDAY, December 10, 1867.

Gold opened at 136¾ firm but quiet, and gradually declined to 135¾ at the close, with more disposition to sell than buy. A large short interest was created on Thursday and Friday, which was partly covered on Saturday, but yesterday morning the bears brought out another contingent and hammered the market down, so a decline of one or two points is confidently expected, and once down near 30 per cent., people will at last begin to think that specie times are approaching, and unless there is much demand for coin to be shipped to Europe, rates will gradually tend downward; if anything at all will force down the premium, the heavy disbursements in January for interest certainly will do it.

Bonds are less buoyant to-day, and have declined. Ten-Forties and 1881s are weak, as are also 5-20s of 1862; the balance of the list is steady. The course of Government bonds is downward, though not for want of confidence in the ability of the Treasury to meet all outstanding obligations, but from very national causes. The small traders and the laboring classes absorbed a large amount of bonds when they earned more than they needed, but now it is the reverse. Larger capitalists have sold their bonds at high premiums, and are still pursuing that now, and invest in mortgages which yield them more than any bonds, and their investment is not subject to gambling operations of Wall street, neither expansion nor contraction can effect their investment. If a policy of contraction is pursued, bonds must go lower, for larger amounts that will be offered then can be absorbed.

Stocks are dull, except New York Central, Fort Wayne and Cleveland and Pittsburgh. Northwestern common has declined from 65½ to 59¾, but the clique is determined to make all the money out of it they can, and put up the price again to 61¾. Merchants Union Express, which we advised a few days ago would be a good price to sell at, is now down to 38⅝, and Quicksilver is dull at 19½, a decline of 2 per cent.

Closing New York quotations, received by Ph. R. Mertz, were as follows:

Gold, 135¾; 1881's, 112¼; 5-20s, 1862, 107⅝; 1864, 104⅞; 1865, 105¼; Consols, 107⅝; 10-40s, 101⅝; 7-30s, 104⅝.

On the consolidation of the debt the *Financial Chronicle* says: "The proper plan, no doubt, is to consolidate the debt into a long 5 per cent. loan; and an absolute long loan is preferable to a conditional one. It might run for not less than thirty nor more than fifty years, and should be subject to the existing sinking fund laws. The London *Times* lately accounted for the high rates of interest we are paying on our debt by the statement that the vast aggregate of it consisted of terminable annuities, which would expire in twenty or forty-nine years. The 8 per cent. we pay on our long bonds was represented as being in part a repayment of a yearly instalment of the principal. This extraordinary mistake on the part of the leading London journal may perhaps contain a valuable suggestion. At any rate it is worth our while to consider whether a part, at least, of our foreign debt might not be converted into terminable annuities on a satisfactory basis. The present stagnation of the money market of Europe, and the indisposition to invest in ordinary securities, which is especially complained of in England, originates with the class of persons to whom a terminable annuity would be attractive. We offer the suggestion not as final, but as worthy of discussion and examination. We are not sure that it would be practicable; but if so, it would no doubt be a very judicious step for us to take a large part of the three hundred and fifty millions or four hundred millions of United States bonds which are held abroad and convert them into terminable annuities, while the rest, together with our bonds held at home, should be consolidated into absolute long bonds, bearing a low rate of interest."

—A bill is now pending before the Committee of Ways and Means, to provide for the refunding of the entire public debt of the United States, known as Mr. Williams' bill and is supposed to be based on the suggestions in the report of the Secretary of the Treasury, but differs from the plan therein recommended in several important particulars. It provides for a six per cent. stock to run fifty years, but payable after twenty years at the option of the Government. It proposes to reserve one-sixth of the interest to be divided among the States wherein the holders of the bonds reside to, and extext of the money obtained from citizens and corporations located in this country; the interests obtained from non-residents to go to a sinking fund. It grants holders of outstanding securities of any description the privilege of changing them into greenbacks, and holders of greenbacks the right to convert them into bonds. If holders of bonds now outstanding shall not wish to change them for the new issue authorized by this bill, but shall demand payment, they shall be paid in paper money, except where the law and contract authorizing their issue make them payable in coin. The banks are autorized to surrender their bonds at market value for greenbacks, and cancel their national currency. The objectional features of the bill are apparent without comment.—*Phila. Ledger.*

PITTSBURGH PETROLEUM MARKET

OFFICE OF THE PITTSBURGH GAZETTE,
TUESDAY, December 10, 1867.

CRUDE—The market was quiet but steady to-day—not a single sale reported. Spot oil may be quoted at 7@7½c, in bulk cars—buyers and sellers apart—the inside quotation offered, and the outside quotation asked. The majority of the operators are paying more attention to settling up old contracts than making new ones; as a general thing, this is done by paying differences, and in reality, but little oil is being delivered; and, as we have repeatedly stated recently, there is little or no oil in this market available. We have no advices from Oil City to-day, but we presume there has been no material change at that point.

REFINED—The market for bonded oil was more active and considerably stronger to-day, and compared with yesterday, an advance has been established. We can report sales of 500 for all December, buyer's option, at 25½c; 500 do do at 25⅝c, and two lots of 500 each, for same month and option, at 26c; also, 1000 for October, 1868, at 30c; and 1000 for January, 1869 at 28c. Whoever sold the last two lots of oil, for October, 1868, and January, 1869, cannot have much faith in big prices, twelve or thirteen months hence, otherwise these sales would not have been made. This is what may be called selling for future delivery, with a vengeance, and does not tally well with the movement which was talked of last week of selling nothing beyond 15 or 30 days.

New York Dry Goods Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, December 10.—The Dry Goods trade continues generally inactive, but still a moderate injury prevails at prices, showing no important change, if we omit the Wamsutta and Tuscarora muslins, which have fallen in price to 20 and 18 respectively. Brown Sheetings of the best makes in light supply, but firm, at 14½c for Appleton A and Lawrence C; 15 for Clark and Indian Head, and 15½c for Atlantic A. Heavy Brown Drills firm at 15@16½. Printing Cloths sold more freely, at 6¾@6⅞ for standard cloth, but holders are now asking 7c for the best makes. Prints in steady and fair request, at 12½ for Richmonds, Dunnells, Allens and American; 13½ for Cocheco and Merrimac D, and one cent more for Frocks, Pinks and Purples. The production is much curtailed, and some printers are running on light makes.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
TUESDAY, December 10, 1867.

The general markets are quiet and dull but without quotable change. For some few articles there is an improved demand, and that, too, at higher prices, in consequence of scarcity, but, as a general thing, the volume of business is limited, and there is but little prospect of any immediate improvement.

GRAIN—There is no demand for Spring Wheat in this market. Winter Wheat is steady, with regular sales at $2,45@2,50 for Red, and $2,55@2,60 for White. Barley is unsettled, buyers and sellers being apart; malsters are only offering $1.50 for prime Spring, but holders, as a general thing, are unwilling to sell at that figure. Corn is firmer, and we continue to quote at $1,05@1,10 for new, and $1,15@1,20 for old. Oats firm; sale of 1 car, in bulk, to arrive, at 66c; small sales in store at 70c. Rye is quoted at $1,50@1,55.

FLOUR—There is an improved demand, and while the market is considerably firmer and more active, prices are unchanged. We continue to quote at $10@10,50 for Spring Wheat; $11,50@12.50 for Winter Wheat, and $14@15 for fancy brands. Rye Flour is selling at $8,50@8,75 per barrel, and Buckwheat at $5@5,50 per cwt.

MILL FEED—Is firm but unchanged; sales at $1,60@1,65 for Bran; $1,75@2 for Seconds, and $2,25 for Middlings.

APPLES—Firm but unchanged; regular sales in store at $2,50@3 per bbl for fair to good, and $3,60 to $4 for prime to choice.

POTATOES—The market continues exceedingly dull with a supply largely in excess of the demand; small sales at 95c@$1 per bushel, for prime Peach Blows.

BUTTER—Is firm, and prime to choice Roll still commands 38@40c. Print is worth 50c.

DRIED FRUIT—Is dull but unchanged; small sales at 7@8c for Apples, and 12@13c for Peaches.

HAY—Prime baled is selling on track at $22@23. Sales from country wagons at $18@24,00, for common to strictly prime.

BEANS—Dull at $3,25@3,50.

HOMINY—Quoted at $7@7.50.

FLAX SEED—Sales at $2 per bushel.

OIL—Lard Oil still quoted at 88c for No. 2, and $1,10 for No. 1, and market firm.

CHEESE—Sales of Hamburg at 15@16c; Factory at 16½@17c; and Goshen at 17½@18c.

New York Produce Market.

[By Telegraph to the Pittsburgh Gazette.]

NEW YORK, Dec. 10.—Cotton dull and fully ½ to 1c lower; sales of 1800 bales at 16½c for middling uplands. Flour—receipts of 11,740 barrels; opened 1 to 2c better, but closed with an advance; at the last 14,600 bbls at $8.65@9,35 for State and Western; $9,00@10.35 for superfine common to choice Extra State; $9,65@12,50 for Extra Western; $10,00@12,00 for Round Hoop Ohio; $10.25@12,75 for common to good St. Louis; $12,25@15,00 for good to choice extra do; included in the sales are 2,000 bbls Extra State for last half of December at $10,50; 1,600 bbls Fancy State first half of January, at $11,60; California firmer and more active; 3,000 sacks and bbls at $12,25@13,50. Rye Flour at $7,50@9,25. Whiskey quiet and unchanged. Receipts of Wheat 7,300 bush; opened 2 to 3c better but closed quiet, with an advance at the last; sales of 41,000 bushels at $2,35@2,38 for No. 2 Spring; $2,40@2,42 for No. 1 do; $2,85 for Amber State; $3,00 for White State; $2,65 for Amber Jersey; $2,50 for White Canada in bond. RIVER NEWS.

The river, we regret to state, continues to recede, the Monongahela pier marks last evening only indicating three feet ten inches. The weather yesterday was unsettled and raw, with an occasional sprinkling of rain, and the indications last night were favorable for more water.

The Grey Eagle, which boat left for Parkersburg on Monday night, returned yesterday, being unable to get through Brunot, which place was blocked with barges and flats of coal, hard aground. The towboat Fearless, it seems, grounded her whole tow in the channel, and until these barges are removed, steamers can neither get up or down, and until there is more water, navigation is virtually suspended.

Thus far, it would appear, that the only two boats that were successful in getting through Brunot were the Sam Roberts, Leader, Arab and Abe Hays. It was rumored that two of these boats had got into trouble at the head of Brown's Island, a short distance above Steubenville, but we cannot vouch for the correctness of the report. In consequence of the blockade at Brunot, the Antelope, Ella, Stella and Grey Hound returned to the landing, as did also the Fearless, the latter boat minus her tow. The Grey Eagle only went down as far as the Marine Railway.

The Northern Line Packet Company paid their employees as follows, during this year, showing a material decline: Captains, per month, $250; Pilots, $250; First Clerk, $170; Second Clerk, $90; Engineer, $140; Second Engineer, $90; Mates, $100; Steward, $70; Deck hands, $40 to $60.

The Mobile *Times*, of the 3d, says: The western steamboatmen have discovered that whenever any of their boats lost any whisky it always turned out the best kind; to remedy which all shipments of the staff of life are hereafter to have the quality and invoice price set forth in the bills of lading. A similar move, we think, wouldn't be a bad idea round here. Then when you lose Dog river, pay for Dog river; when you lose rye, pay for rye.

Says the Cincinnati *Gazette*, of Monday: The Leclaire No. 2 arrived from Wheeling Saturday evening, and reshipped considerable freight on the Louisville Mail boats. She also had 375 kegs nails for Memphis, some lots for New Orleans, and considerable for Cincinnati. The wind caused her to miss the channel at Quick's run, which is the only place that gave her trouble since she left Wheeling. It is not yet decided what the Leclaire will do. Portsmouth, Pomeroy, Nashville and Memphis are being considered.

The New Albany *Ledger* says: The supply of Pittsburgh coal in the hands of dealers in this city does not exceed 4,000 bushels to-day, and the price remains at 40c per bushel. At Louisville there is no Pittsburgh coal of any amount in the market, and the price has advanced to 62c per bushel. Both New Albany and Louisville the main dependence is placed now upon the mines at Cannelton, Hawesville, Rockport, and in Clay county. A freeze up would soon exhaust the supply of Pittsburgh coal in our manufacturing establishments, and necessitate their stoppage. This would throw hundreds of men out of employment at the most unpropitious time of the year, and cause an immense amount of actual suffering.

The Louisville *Democrat* says there is only 40,000 bushels of coal in that city, all under the control of one party, who bought it on speculation several months since, and refuses 100 per cent. advance on his bargain.

The Cincinnati *Commercial* says: Mr. Jas. Ross has just completed a new barge at Pittsburgh, and is now putting on a cargo box, for the Maggie Hays. Capt. Barney Martin will command the Maggie Hays next season. The new barges has capacity for 400 tons.

Says the Wheeling *Intelligencer*, of Saturday: Work was stopped at the Whittaker Iron works on Thursday. All the boiling furnaces up at the Wheeling Iron Works were dark and cold. Only the nail machines were in operation. We trust these suspensions are but temporary, as hundreds of laborers are thus thrown out of employment. With no work, and just entering upon winter, the prospect is any thing but pleasant to the workmen, and we believe that our manufacturers would very willingly continue their operations, did the circumstances justify.

The Quebec *Mercury* says: "Information has transpired that the Quebec Carpenters' Union is affiliated with and has been pecuniarily sustained by similar bodies in New York, Chicago and Detroit. From the latter place a recent remittance of money was received, but with a notification that no further money could be sent, as the 'Union' there was breaking up—those in Chicago and New York having already broken up—and the members were about to begin work at such rates as the builders could afford to pay. Having done the mischief here that they intended—having diverted the trade from Quebec for the present, these Yankee sympathizers prepare to take advantage of their intrigue, and the unfortunate workmen of St. Roch and find themselves for the winter without support and without work. Although ship builders have been working under great difficulties since 1860, the cost of money alone being nearly 20 per cent. for the various advances, the increased cost for iron kneeing, bolting and strapping, being about $3.30 per tun, and a charge of twenty-five cents per tun for Lloyd's—owing to the lower rate of wages and cheaper cost of living here, our Quebec builders have been enabled to compete to a sufficient extent to keep their yards open up to the present. Now, however, there is every reason to fear that this branch of industry will collapse with us, and the misery and distress that must prevail during the winter now opening it is frightful to contemplate.

COAL AT LOUISVILLE.—The *Courier* of Saturday says: The coal supply question continues to command general attention, and we notice quite a fleet of small towboats are in commission, plying between this port and Hawesville and Cannelton. The T. D. Horner and the Valid and the Sandy Valley have started to Hawesville for coal, and Peytona arrived yesterday with 16,000 bushels—a moderate supply. A committee of citizens were in consultation at the Board of Trade Rooms yesterday, trying to perfect an arrangement to secure a supply of coal for the city, to be sold at cost. They adjourned over until to-day at 11 o'clock a. m.

INSURANCE ON BARGES.—The recent action of the Board of Underwriters, resolving not to insure on barge cargoes except on certain conditions, has been put to a practical test in the case of the towboat Ocean Wave and her barges. One of the restrictions of the Board is that no boat can tow more than three barges from here to Cairo. The Ocean Wave proposed to take six. She had four loaded, and expected to load the other two here. The Board would not take risks. The result was the formation of a "ring," composed of responsible companies which will take the risks, and the Wave will leave Monday with six barges, all well loaded, and her cargo all insured. The so-called ring or combination is composed of the Atlantic, Citizens, Globe, Commercial, Mississippi Valley, Excelsior, Occidental, and the Western, of St Louis, and the companies represented by the agencies of Chadester & Weed, and T. B. Dutchess.—*St. Louis Times.*

SIGHT RESTORED.

The case to which we alluded some weeks ago, of Christiana Fisher, of Beaver county, is now entirely confirmed by the appearance of Miss Fisher hers it who to-day called on DR. KEYSER in person, to thank him for his kindness and skill in restoring her to ENTIRE AND PERFECT SIGHT. Miss Fisher had been nearly blind for four months. She was so blind that she could not distinguish any object so as to make out what it was. The case is remarkable, as hundreds of cases like her's are doomed to never-ending darkness, on the flimsy pretext that there is no cure, and nothing can be done. She was under DR. KEYSER's treatment for two months, and before she applied to him, through her brother, SIMON P. FISHER, slight hopes were entertained of her ever getting her sight. Her case is well known in the neighborhood where she resides, and has been regarded as one of extraordinary recovery.

We, the undersigned, know of the cure of Miss Fisher, and bear willing testimony to the facts above stated.

DR. KEYSER—This is the list of names that have to your advertisement of the cure of my sister, Christiana Fisher. They were all willing to put their names down and were very much astonished to see that you brought her sight so soon. My mother sends her thanks to you; she says "you are one of the greatest men in the world." She says if we had not come across you she believes her child would not be living at this time. We all join in sending our love and respects to you.

CONSUMPTION.

It would take a man a lifetime to read the treatises that have been written upon this important subject, and if such a one were to attempt it he would make himself worse by the reading, and die before he got half through. The symptoms of the disease are, hacking cough, expectoration of matter or pus, pain in one or both lungs, chilliness, burning in the palms of the hands and soles of the feet, exhausting day or night sweats, hectic fever, wasting of flesh or marasmus, sometimes expectoration of blood. These are the usual outward symptoms, apparent not only to the observing physician, but to the patient's friends. There are, however, more important symptoms than these, which are only made manifest by auscultation and percussion, terms which mean, in a medical sense, thumping and listening; and they are employed outwardly in order to ascertain what is going on inside of the cavity of the chest. The signs of symptoms elicited in this way are almost sure to demonstrate the true and exact condition of the respiratory organs. A perfect auscultator can not fail to ascertain whether the lungs are acting naturally or not. Hence it is the best method of examining the lungs. Their actual condition once discovered, the appropriate treatment is more rapidly arrived at, and every diseased part more completely under the influence of appropriate remedies. We have long been of the opinion that consumption or decay, or wasting of the bodily strength, was dependent on a depraved state of the blood, which carries, in its course, tuberculous matter, and deposits it in the lungs, or elsewhere in the body, just as calculi or stone is deposited in the bladder, a small particle of which attracts other particles, until it becomes of such offense to the several functions as to bring on inflammatory action, which action, if it could, would carry it out of the system, and which could have been easily done in the beginning of such disease. Dr. KEYSER'S PECTORAL SYRUP is a complete and perfect cure in the forming stage of lung disease. It acts on the very principle we have stated above, by enabling the secreting or carrying off organs to do a double share of work. Waste and repair are easily comprehended, and if the worn out material be carried off, and the renewing material of a proper character, there must be health and ease, the contrary of sickness and disease. In many cases of consumption which have become settled, Dr. Keyser's Pectoral Syrup fails to cure, although it will do good in nearly all. He prepares a medicine called LUNG CURE or PULMONARY RESTORATIVE, which is a great tonic, and strengthens and restores the parts to be renewed, while it dissolves and carries out from the body those particles of worn out or extraneous matter, which only tend to clog or destroy it, by hindering the renewing material being deposited in its proper place.

PULMONARY CONSUMPTION, RESULTING FROM PLEURISY, CURED.

Statement of George Ford, carpenter, of No 16 Sampson street, Allegheny City:

I took a violent attack of pleurisy, in May, 1866, which left me with a cough lasting all summer, wearing away my strength and gradually undermining my health. During this attack of pleurisy I had several physicians of the highest reputation in the city. After I had partially recovered from the pleurisy, I was advised to go into the country, which I did, and there I was called in a doctor, who told me my left lung was affected, and that if something were not done soon I would die of CONSUMPTION. I lingered on from this time until about the middle of June, my cough and lung disease gradually growing worse, and I weaker every day, and almost despairing of ever getting well. In this state of despondency, and knowing the general belief of the incurability of Consumption, and having heard of cures made by DR. KEYSER, and seeing his advertisement in the newspapers, I was induced in October last to call on the Doctor at his office, 120 Penn street, and had him examine my lungs with his "LUNG SOUND." He told me the upper lobe of my left lung was very much diseased, but he thought with great care and the perseverance in the use of his medicine, I would get well. At the time I called on Dr. Keyser my pulse was over one hundred and thirty beats in a minute, and I was generally prostrated, and had to cough night and day. I commenced the Doctor's treatment in October, with a feeble, broken constitution, and continued it faithfully until the present time. The Doctor's medicines helped me from the very start, and I could gradually feel myself getting stronger, and my cough and expectoration lessening. I have gained greatly in flesh, and consider myself well; all the failing of my lung has ceased, and my general health is in every way good. All my relatives and friends know of the advanced stage of my disease and my extraordinary recovery. One of the medicines given me by Dr. Keyser was a medicine called LUNG CURE, which I took in connection with the other treatment.

GEORGE FORD.

PITTSBURGH, March 30, 1867.

ANOTHER CURE OF CONSUMPTION.

STATEMENT OF JOHN G. WIGHAM, OF TURTLE CREEK, ALLEGHENY COUNTY.

I was discharged from the United States army in January, 1865, on account of a wound in the head, from a shell, and a disease which the army physicians pronounced CONSUMPTION. I had a terrible cough and fell away in strength and flesh and was unable to do anything. Shortly after my return from the army, I made application to a physician of my neighborhood and, afterwards, to another in Pittsburgh of high reputation, whose remedies I used faithfully for five months, without any benefit whatever, but rather grew worse, and wasted in flesh and strength every day. In August, 1866, my mother took me to DOCTOR KEYSER, of 120 Penn street, whose skill in such cases like mine had been highly spoken of and put myself under his treatment. The Doctor examined my lungs very carefully with his LUNG SOUND, and told me that my left lung was badly diseased in the upper part, but if I was careful he thought he could cure me by following his directions closely, which I did from that day to this. I gradually improved under Dr. Keyser's medicines from the first week I commenced to take them, and my general health has improved and my chest, where it was sunk away, and where it pained me, has become full and strong and free from pain. I can now do a full day's work, and take great pleasure in giving my testimony in favor of Dr. Keyser's treatment and medicines.

JOHN G. WIGHAM, Turtle Creek.
PITTSBURGH, April 11th, 1867.

A case of five years' standing cured by DR. KEYSER'S PECTORAL SYRUP:

DR. KEYSER—My wife has been afflicted with a cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case I procured some of your PECTORAL COUGH SYRUP. I bought the first time a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself to a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this if you desire to do so.

WM. WILSON,
Alderman Fifth Ward.

Our son, JAMES PAINTER, some 23 years of age was afflicted with consumption of the lungs, for which he was discharged from the army. He was examined by four army physicians, who all agreed that he must die with the disease. We brought him to Dr. KEYSER, 140 Wood street, (now 120 Penn street,) who, after sounding his lungs, commenced to treat him, and cured him sound and well. He is now well and has been so for the past three years. Others afflicted in like manner can likewise be cured.
